## **Online Life We Longed Housing Postwar:**

*Global Settlement Dynamics* Yoann Doignon, Sebastien Oliveau, 2024-11-22 There are currently over eight billion people on Earth how did we arrive at the current distribution of humans on the planet What shape is it taking and how will it evolve This book proposes an original answer to this which is based on the explicit desire to place settlement at the heart of its questioning by varying the level of analysis from global to local After recalling how humans colonized the entire planet this book presents their current distribution which is predominantly urban Population dynamics birth rate death rate and migration are driving changes including the demographic decline of certain regions which are presented and explained from the angle of residential mobility and international migration as well as the impact of ongoing climate change *Global Settlement Dynamics* concludes with a discussion of the future of these settlements based on data from the United Nations and the question of the sustainability of human settlements on Earth **Insect Histories of East Asia** David A.

Bello, Daniel Burton-Rose, 2023-06-20 Spotlights insects in Chinese Japanese and Korean history from the exalted to the despised Interactions between people and animals are attracting overdue attention in diverse fields of scholarship yet insects still creep within the shadows of more charismatic birds fish and mammals *Insect Histories of East Asia* centers on bugs and creepy crawlies and the taxonomies in which they were embedded in China Japan and Korea to present a history of human and animal cocreation of habitats in ways that were both deliberate and unwitting Using sources spanning from the earliest written records into the twentieth century the contributors draw on a wide range of disciplines to explore the dynamic interaction between the notional insects that infested authors imaginations and the six legged creatures buzzing hopping and crawling around them **Old-House Journal** ,2004-03 Old House Journal is the original magazine devoted to restoring and preserving old houses For more than 35 years our mission has been to help old house owners repair restore update and decorate buildings of every age and architectural style Each issue explores hands on restoration techniques practical architectural guidelines historical overviews and homeowner stories all in a trusted authoritative voice [American World War II Orphans Network](#) ,2005-03 **Aslib Proceedings** ,2008 **Architecture Minnesota** ,2004 **Princeton Alumni**

**Weekly** ,2009 **Town & Country Planning** ,2000 **Childhood and Nation in Contemporary World Cinema** Stephanie Hemelryk Donald, Emma Wilson, Sarah Wright, 2017-02-09 The child has existed in cinema since the Lumi re Brothers filmed their babies having messy meals in Lyons but it is only quite recently that scholars have paid serious attention to her his presence on screen Scholarly discussion is now of the highest quality and of interest to anyone concerned not only with the extent to which adult cultural conversations invoke the figure of the child but also to those interested in exploring how film cultures can shift questions of agency and experience in relation to subjectivity *Childhood and Nation in World Cinema* recognizes that the range of films and scholarship is now sufficiently extensive to invoke the world cinema mantra of pluri vocal and pluri central attention and interpretation At the same time the importance of the child in figuring

ideas of nationhood is an undiminished tic in adult cultural and social consciousness Either the child on film provokes claims on the nation or the nation claims the child Given the waning star of national film studies and the widely held and serious concerns over the status of the nation as a meaningful cultural unit the point here is not to assume some extraordinary pre social geopolitical empathy of child and political entity Rather the present collection observes how and why and whether the cinematic child is indeed aligned to concepts of modern nationhood to concerns of the State and to geo political organizational themes and precepts

**Contagion Capitalism** Sean Creaven, 2023-12-15 Contagion Capitalism situates the COVID 19 pandemic within the systems of global political economy and their attendant cultural modes and theorizes that these systems act as facilitators and drivers of global pandemic risk Contagion Capitalism therefore critiques the institutionalized corporate capitalist control of the economy the state and science and the grave consequences this has on global public health policy the ecological crisis of sustainability and zoonotic pandemic events such as COVID 19 In doing so this book addresses the failings of what may be termed as state science or establishment science in managing the pandemic as personified especially by those elements of the scientific elite placed in the service of the neoliberal state This book also explores the limitations of corporate pharmacological technoscience in safeguarding public health arguing that Big Pharma offers only partial remedies for problems of human illness and well being poses its own dangers to public health and obfuscates the social bases of public ill health and of pandemic risk Contagion Capitalism further argues that COVID 19 will not be the last or even the most dangerous such epidemiological event This is because the social production and global dissemination of zoonotic diseases is integral to contemporary capitalism by virtue of its instrumental mode of science its central dynamic of production for the sake of accumulation and the consumer mode this sustains as its own condition of existence These are the drivers of what may be termed as zoonotic accelerationism Contagion Capitalism will appeal to scholars in the humanities and social sciences with interests in neoliberal ideology and global political economy and their impact upon social political and cultural life
