## Weight Loss Plan Guide Open Now:

**Exercise Exchange Program** James M. Rippe, 1993-02 The Exercise Exchange Program is for anyone who has ever found diet and fitness programs restrictive regimented dull and just plain ineffective. It's a proven and flexible alternative that adds variety and interest to your current plan or helps you create one of your own. Dr. James M. Rippe, author of the bestselling Rockport Walking Program, has developed an innovative concept of nutritional and exercise exchanges that lets you mix and match many different foods and activities as you develop a plan designed to fit your own unique tastes and needs. You'll learn The six food categories and how to balance them. How to participate in a different activity every day including housework and gardening as well as conventional exercise and still get a complete workout. Dr. Rippe's complete 30 day exercise and diet program. Finally, The Exercise Exchange Program includes more than 100 delicious new low fat recipes to get you started on the road to lasting health.

**A Clinician's Guide to Discussing Obesity with Patients** Sandra Christensen, 2021-03-25 This practical book provides effective, time efficient strategies for initiating and continuing productive conversations about weight that can be incorporated into any practice setting. It will benefit all clinicians, advanced practice nurses, physician assistants, physicians from students to experienced providers, whether they provide obesity treatment or refer to those who do. This guide addresses the numerous barriers that clinicians encounter when they contemplate or attempt conversations about weight and provides strategies to reduce and overcome these barriers. It guides clinicians step by step through the concepts and skills needed to have conversations that lead to improved health. Each chapter provides useful tools and information about how to move the conversation forward in a respectful, skillful manner. Real life clinical scenarios provide examples of short productive conversations that incorporate the tools into clinical practice. Many clinicians recognize the importance of discussing weight with their patients yet feel unprepared to do so. Most did not learn about obesity or how to talk about it in their clinical educational programs and have little access to continuing education. Without the knowledge and skills to start a productive conversation, many avoid the topic. This avoidance has a negative impact on the health of those with obesity and pre-obesity. Given that obesity treatment improves outcomes, it is imperative that clinicians are skilled at discussing weight with knowledge and sensitivity. This book meets that gap.
