

Migration Theory
Talking across Disciplines
FOURTH EDITION

Edited by **Caroline B. Brettell**
and **James F. Hollifield**

Migration Theory Talking Across Disciplines

Abdoulaye Kane, Todd H. Leedy

Migration Theory Talking Across Disciplines:

Migration Theory Caroline Brettell, James Frank Hollifield, 2000 First published in 2000 **Migration Theory** Caroline B. Brettell, James F. Hollifield, 2013-05-13 During the last decade the issue of migration has increased in global prominence and has caused controversy among the host countries around the world Continuing their interdisciplinary approach editors Catherine Brettell and James Hollifield have included revised essays from the first edition in such fields as anthropology political science and history This edition also features new essays by a demographer geographer and sociologist

Migration Theory Caroline B. Brettell, James F. Hollifield, 2022-07-01 The revised fourth edition of Migration Theory continues to offer a one stop synthesis of contemporary thought on migration Editors Caroline B Brettell and James F Hollifield remain committed to include coverage that is comparative and global in scope while enhancing similarities and differences between one academic field and the next All chapters have been revised to highlight cutting edge issues in the field of migration studies today The fourth edition welcomes two new authors Professors Marie Price and Francois H ran to offer a fresh approach with their chapters on geography and demography respectively Designed for undergraduate and graduate courses in migration studies a primary goal of the text is to assist instructors in guiding students who may have little background on migration to understand important issues and the scientific debates This ensures Migration Theory is a highly valuable guide not only to the perspectives of one's own discipline but also to those of cognate fields **Migration** Michael Samers, Michael Collyer, 2016-12-08 While the subject of migration has received enormous attention in academic journals and books across the social sciences introductory texts on the matter are few and far between Even fewer books have explored migration through a critical and explicit engagement with spatial concepts Now in its second edition Migration remains the only text in more than a decade that emphasizes how geographical or spatial concepts can be used critically to understand migration The multi disciplinary text draws on insights from human geography political science social anthropology sociology and to a lesser extent economics All of the chapters focus on key terms theories concepts and issues concerning migration and immigration The book argues that in the context of migration two opposing spatial positions have emerged in the wake of the critique of methodological nationalism On one hand is the significance of transnationalism and on the other the importance of sub national or local processes Both require more nuance and integration while many of the concepts and theories which have thus far neglected space or have not been treated spatially need to be re written with space in mind Pedagogically the text combines a carefully defined structure accessible language boxes that explore case studies of migrant related experiences in particular places annotated suggestions for further reading useful websites and relevant films and summary questions for student learning at the end of each chapter Migration provides a critical multi disciplinary advanced and theoretically informed introduction to migration and immigration Revised and updated with new material new maps and illustrations and an accompanying website <https://migration2ndedition.wordpress.com> it continues to

be aimed at advanced undergraduates and Masters level graduate students undertaking courses on migration and immigration

African Migrations Abdoulaye Kane, Todd H. Leedy, 2013-02-18 Engaging case studies add to understanding the social processes of voluntary and forced displacement within the continent and across the seas Choice Spurred by major changes in the world economy and in local ecology the contemporary migration of Africans both within the continent and to various destinations in Europe and North America has seriously affected thousands of lives and livelihoods The contributors to this volume reflecting a variety of disciplinary perspectives examine the causes and consequences of this new migration The essays cover topics such as rural urban migration into African cities transnational migration and the experience of immigrants abroad as well as the issues surrounding migrant identity and how Africans re create community and strive to maintain ethnic gender national and religious ties to their former homes

Reseña de "Migration Theory. Talking across Disciplines", de Caroline Brettel y James Hollifield (editores). María Eugenia Anguiano Téllez, 2001

At Risk of Deprivation Jonas Bergmann, 2023-10-19 This open access book examines how and why various forms of climate im mobilities can impact people s objective and subjective well being Worsening climate impacts are forcing subsistence farmers worldwide to decide between staying or leaving their homes This mixed methods study analyzes cases of climate related migration displacement relocation and immobility in Peru s coastal highland and rainforest regions The results reveal that numerous farmers experienced profound and often negative well being impacts regardless of whether they stayed or migrated The higher the structural constraints such as weak governance and the more damaging the climate impacts were the higher the risk of well being declines Additionally the affected individuals often had limited agency and ability to mitigate losses These findings challenge the notion of migration as adaptation and emphasize the importance of safeguarding the human rights and security of those affected while addressing loss and damage Without significant investments in such efforts climate impacts could sharply diminish the well being of numerous subsistence farmers worldwide irrespective of whether they stay or migrate

Mapping Migration, Identity, and Space Tabea Linhard, Timothy H. Parsons, 2018-07-14 This interdisciplinary collection of essays focuses on the ways in which movements of people across natural political and cultural boundaries shape identities that are inexorably linked to the geographical space that individuals on the move cross inhabit and leave behind As conflicts over identities and space continue to erupt on a regular basis this book reads the relationship between migration identity and space from a fresh and innovative perspective

The Bible and Immigration Markus Zehnder, 2021-08-12 Questions relating to im migration are among the most heated topics on both sides of the Atlantic Western societies have changed dramatically because of large scale immigration in the last decades Christians are also engaged in the discussion attempting to find direction from the biblical texts Overwhelmingly persons in leading positions both in the secular world and in churches and faith based organizations support the concept of welcoming the stranger The Bible is seen by them as urging us to open the borders as wide as we can In the broader population however reservations remain This book written by a Bible

professor who has witnessed mass migration first hand both in Europe and in the U S and who has been a migrant himself for over twenty years attempts to step back and look at the whole of the complex biblical witness instead of cherry picking passages that further a specific agenda It also looks at the salient data on the ground in the fields of psychology demography economy and security data that can no longer be ignored when trying to apply the Bible in a responsible way The book demonstrates the shortcomings of the vast majority of biblical and theological publications on the issue of im migration and presents a comprehensive argument for the use of wisdom and caution and against short sighted and emotionally driven policies supporting open borders

Migration Happens Katarina Ferro,2006 Migration happens Migration is a global phenomenon that did not just emerge in the 21st century It is perceived by many as a constant source of problems and threats This notion is propagated by politicians among others who use migrants for to further their own political ideologies Due to economic and security developments globally migration is beset by increasing ethnical conflicts and restrictive immigration policies This in turn creates heightened difficulties for migrants But it also generates new life situations shapes lives and reshapes identities The region of the South Pacific is no exception Considering conflicts in recent years the issue of migration in this area exemplifies the contestation over migration This book provides an overview on migration issues in the South Pacific Issues such as gender the historical aspects and the history of migration in the Pacific migration and conflicts challenges for second generation migrants as well as the situation of Indians after the coup in Fiji are addressed in this volume of the NOVARA Contributions of Research in the Pacific

An Introduction to Population Geographies Holly R. Barcus,Keith Halfacree,2017-09-01 An Introduction to Population Geographies provides a foundation to the incredibly diverse topical and interesting field of twenty first century population geography It establishes the substantive concerns of the subdiscipline acknowledges the sheer diversity of its approaches key concepts and theories and engages with the resulting major areas of academic debate that stem from this richness Written in an accessible style and assuming little prior knowledge of topics covered yet drawing on a wide range of diverse academic literature the book s particular originality comes from its extended definition of population geography that locates it firmly within the multiple geographies of the life course Consequently issues such as childhood and adulthood family dynamics ageing everyday mobilities morbidity and differential ability assume a prominent place alongside the classic population geography triumvirate of births migrations and deaths This broader framing of the field allows the book to address more holistically aspects of lives across space often provided little attention in current textbooks Particular note is given to how these lives are shaped though hybrid social biological and individual arenas of differential life course experience By engaging with traditional quantitative perspectives and newer qualitative insights the authors engage students from the quantitative macro scale of population to the micro individual scale Aimed at higher level undergraduate and graduate students this introductory text provides a well developed pedagogy including case studies that illustrate theory concepts and issues

□□□□□,2005 **The International**

Migration Review, 2007 Quarterly journal on sociodemographic economic historical political and legislative aspects of human migration and refugee movements Each issue of IMR presents original articles research and documentation notes reports on key legislative developments both national and international an extensive bibliography and abstracting service the International Sociological Association s International Newsletter on Migration plus a scholarly review of new books in the field IMR also offers annual special issues Planned by the Editorial Board in conjunction with guest editors each of these issues provides an extensive and comprehensive analysis of a single topic of emerging relevance in migration studies

At Home in the Chinese Diaspora Khun Eng Kuah-Pearce, Andrew P. Davidson, 2008-01-17 At Home in the Chinese Diaspora explores issues of memory and how memories are deployed and negotiated to re establish a sense of belonging This volume breaks new ground in analyzing the relationships between migrants adjustment assimilation and remembering home through the focal point of memories Some chapters focus conceptually on memories as social expressions a locus of place cultural capital and imagination Others explore the tensions and conflicts in representing and renegotiating memories through the world of literature and cinema

Cambodian Migrants' Social Protection, Local Integration, and Multiple Boundaries in the Thai Border Villages of Khok Sung, Sa Kaeo Province Kimpicheth Chhon (Phra), 2019 Revision of the author s thesis master s Chulalongkorn University

Migration and Development Savina Ammassari, 2009 Examines return migration through a multi level analytical perspective to delve into the experience of highly skilled migrants the return and transfer of their resources and their experience upon returning to their own countries

Uprooted Lives Sang Eun Lee, 2009

Reconstructing Community in Diaspora Chia Youyee Vang, 2006

Migrations and Creative Expressions in Africa and the African Diaspora Toyin Falola, Niyi Afolabi, Adérónké Adésolá Adèsànyà, 2008 Contributors ranging from architects to linguists explore the cultural and spiritual dynamics of migrations in Africa and the African diaspora The co authored volume provides readers with fresh insights on African migration and the attendant implications productions and generations of the historic experiences of those who were forcefully displaced and others who willfully relocated to other spaces of the world The book seeks to engage debates on multiple issues which underpin the provoking history of African migration and their attendant implications provoke a rethinking of the sociology and politics of migrating souls and resistant spirits in the Americas Europe and Africa the restive yet resolute entities scattered still metaphorically united in their quest for and hold on to identity engender fresh understanding and interpretations of cultural ethos of African native homelands and establish where present their replication in migrant communities in the diaspora and tie African migration history with modernity thereby underscoring the points of their interactions departures and tangentially establishing remembrances
