*O BRAVE 'NEW NORMAL' WORLD: Living with Coronavirus* Steve Gleadhill,2025-10-14 It is ironic that having spent several thousand years subjugating all other life forms so we could become the dominant species we have wilfully ceded our hard won authority over our fellow animals to inanimate technology In many cases we have become so blindly reliant on machines that we have stopped using our own wits to the point where our brains are becoming dangerously redundant We hardly need to think for ourselves at all This vacuous mentality that we seem to be embracing is pervading all aspects of our behaviour and society The rise of AI that now exceeds our own intelligence raises new ethical and existential dilemmas As we develop synthetic minds we will need to weigh up how we design them what we allow and don t allow them to do and crucially how to ensure their needs are aligned with our own Meanwhile humanity is waging a suicidal war on the natural world according to secretary general of the UN Antonio Guterres which also ultimately jeopardises our very existence

*Beginning Java Game Development with LibGDX* LEE STEMKOSKI,2015-12-29 Design and create video games using Java with the LibGDX software library By reading Beginning Java Game Development with LibGDX you will learn how to design video game programs and how to build them in Java You will be able to create your own 2D games using various hardware for input keyboard mouse gamepad controllers or touchscreen and create executable versions of your games The LibGDX library facilitates the game development process by providing pre built functionality for common tasks It is a free open source library that includes full cross platform compatibility so programs written using this library can be compiled to run on desktop computers Windows MacOS web browsers and smartphones tablets both Android and iOS Beginning Java Game Development with LibGDX teaches by example with many game case study projects that you will build throughout the book This ensures that you will see all of the APIs that are encountered in the book in action and learn to incorporate them into your own projects The book also focuses on teaching core Java programming concepts and applying them to game development What You Will Learn How to use the LibGDX framework to create a host of 2D arcade game case studies How to compile your game to run on multiple platforms such as iOS Android Windows and MacOS How to incorporate different control schemes such as touchscreen gamepad and keyboard Who This Book Is For Readers should have an introductory level knowledge of basic Java programming In particular you should be familiar with variables conditional statements loops and be able to write methods and classes to accomplish simple tasks This background is equivalent to having taken a first semester college course in Java programming **The Value Line Investment Survey** ,2007 **The Official Xbox Magazine** ,2009
