China and the Internet Song Shi, 2023-12-15 Two oversimplified narratives have long dominated news reports and academic studies of China's Internet: one lauding its potentials to boost commerce, the other bemoaning state control and measures against the forces of political transformations. This bifurcation obscures the complexity of the dynamic forces operating on the Chinese Internet and the diversity of Internet-related phenomena. China and the Internet analyzes how Chinese activists, NGOs, and government offices have used the Internet to fight rural malnutrition, the digital divide, the COVID-19 pandemic, and other urgent problems affecting millions of people. It presents five theoretically informed case studies of how new media have been used in interventions for development and social change, including how activists battled against COVID-19. In addition, this book applies a Communication for Development approach to examine the use and impact of China's Internet. Although it is widely used internationally in Internet studies, Communication for Development has not been rigorously applied in studies of China's Internet. This approach offers a new perspective to examine the Internet and related phenomena in Chinese society. Webworks Katherine Tasheff Carlton, 2001

Contemporary Perspectives on Shopping, Retail and Tourism Dallen J. Timothy, 2025-04-15 In the contemporary world of guaranteed change, shopping remains a constant in the tourism experience, even though its forms, measures, functions, and manifestations are continuously evolving. This book offers traditional perspectives on shopping and tourism and updates current thinking in relation to experiences and internal and external forces that affect retail change and shopping behaviour. It also examines how technology and changes in travel create new retail spaces, virtual spaces, and retailscapes in tourism contexts. The volume provides a global perspective with empirical examples being utilised from many parts of the world in a series of conceptually driven chapters on current issues, opportunities, challenges, and paradigms in the relationship between shopping and tourism.
