VGC: The 2025 Guide to Video Games 1981 Media Ltd, 2025-05-30 Relive 2024's gaming highs, lows, and industry upheavals with this expertly curated year in review. There's no such thing as a quiet year in video games, and 2024 has been no different. For players, a steady stream of high-profile game releases has meant there's always been something new to play, regardless of what console, handheld, PC, or mobile device they were using. Meanwhile, behind the scenes, 2024 has been one of the most turbulent years in the history of the games industry, with widespread job losses, studio cuts, acquisitions, and other controversies. Video Games Chronicle, the expert source for video game news, has covered 2024's goings-on every step of the way, and this book summarises the entire year in one handy volume. Designed like an old-school games magazine, this book presents the VGC website's best coverage of 2024 in a more traditional format. Our News section takes you through all the major stories that took place throughout the year, allowing you to relive every moment for better or worse. Our Reviews section contains every notable VGC game review from 2024, remastered and presented to you in physical form. We're big on preservation, you see. Our Features section offers some of our best long-form articles from the past year. Finally, our Previews section takes a look at some of the games coming in 2025. The world of online games media is a fast-moving one, and news and reviews usually arrive at breakneck speed, then disappear from our consciousness to be replaced with the latest stories. With this book, we hope to provide a more permanent summary of the year while also harking back to the days of the games magazines we loved so much.

TDL 2015-2016 Catalogue TDL Canada, *Humanoid Robots* Ben Choi, 2009-01-01 Humanoid robots are developed to use the infrastructures designed for humans to ease the interactions with humans and to help the integrations into human societies. The developments of humanoid robots proceed from building individual robots to establishing societies of robots working alongside with humans. This book addresses the problems of constructing a humanoid body and mind, from generating walk patterns and balance maintenance to encoding and specifying humanoid motions and the control of eye and head movements for focusing attention on moving objects. It provides methods for learning motor skills and for language acquisition and describes how to generate facial movements for expressing various emotions and provides methods for decision making and planning. This book discusses the leading researches and challenges in building humanoid robots in order to prepare for the near future when human societies will be advanced by using humanoid robots.

Understanding Machinima Jenna Ng, 2013-07-30 In this groundbreaking collection, Dr. Jenna Ng brings together academics and award-winning artists and machinima makers to explore the fascinating combination of cinema, animation, and games in machinima: the use of computer game engines to produce animated films in cost- and time-efficient ways. Book ended by a preface by Henry Lowood, curator for history of science and technology collections at Stanford University, and an interview with Isabelle Arvers, machinima artist, trainer, critic, and curator, the collection features wide-ranging discussions addressing machinima not only from diverse theoretical perspectives but also in its many dimensions as game art. First

Nations media art documentary and pedagogical tool Making use of interactive multimedia to enhance the text each chapter features a QR code which leads to a mobile website cross referencing with its print text integrating digital and print content while also taking into account the portability of digital devices in resonance with machinima s mobile digital forms Exploring the many dimensions of machinima production and reception Understanding Machinima extends machinima s critical scholarship and debate underscoring the exciting potential of this emerging media form *Game Informer Magazine* ,2009
