## Online One Nation Divided Slavery Abolitionism:

The Memory of '76 Michael D. Hattem,2024-07-23 The surprising history of how Americans have fought over the meaning and legacy of the Revolution for nearly two and a half centuries Americans agree that their nation's origins lie in the Revolution but they have never agreed on what the Revolution meant For nearly two hundred and fifty years politicians political parties social movements and a diverse array of ordinary Americans have constantly reimagined the Revolution to fit the times and suit their own agendas In this sweeping take on American history Michael D Hattem reveals how conflicts over the meaning and legacy of the Revolution including the Declaration of Independence and the Constitution have influenced the most important events and tumultuous periods in the nation's history how African Americans women and other oppressed groups have shaped the popular memory of the Revolution and how much of our contemporary memory of the Revolution is a product of the Cold War By exploring the Revolution's unique role in American history as a national origin myth Hattem shows how the meaning of the Revolution has never been fixed how remembering the nation's founding has often done far more to divide Americans than to unite them and how revising the past is an important and long standing American political tradition

*American Writers and the Approach of World War II, 1930-1941* Ichiro Takayoshi,2015 Ichiro Takayoshi's book argues that World War II transformed American literary culture From the mid 1930s to the American entry into World War II in 1941 pre eminent figures from Ernest Hemingway to Reinhold Neibuhr responded to the turn of the public's interest from the economic depression at home to the menace of totalitarian systems abroad by producing novels short stories plays poems and cultural criticism in which they prophesied the coming of a second world war and explored how America could prepare for it The variety of competing answers offered a rich legacy of idioms symbols and standard arguments that were destined to license America's promotion of its values and interests around the world for the rest of the twentieth century Ambitious in scope and addressing an enormous range of writers thinkers and artists this book is the first to establish the outlines of American culture during this pivotal period Provided by publisher

*The Case for the National Slavery Memorial and Aid to our HBCUs* Peter Thalheim,2024-07-25 It is fitting and proper that the United States dedicate solemnize and erect a memorial on our nation's most precious ground the Washington Mall in Washington District of Columbia to commemorate the slavery and human bondage that existed on these shores before and after the founding of the United States in 1776 and the drafting of our Constitution in 1787 Germany is the only major world military or economic power to have a memorial in its nation's capital to honor and commemorate a historic wrong committed by a nation In that case it was the Holocaust murder of over six million Jews during the regime of Adolf Hitler in 1933 1945 The United States is strong enough that she can erect a memorial to the inhumane treatment of people from the African continent whom were enslaved during the Trans Atlantic slave trade and the horrific treatment of such people and their offspring on these shores Such memorial should be located on the Washington Mall within view of the Lincoln Memorial as he was martyred by the Slave Power and also visible to the

Jefferson Memorial as Thomas Jefferson penned the Declaration of Independence the most significant political document to that time declaring the truth that all are created equal and have certain inalienable rights and that among these are life liberty and the pursuit of happiness The Registry of Donors to the National Slavery Memorial has the potential to receive so many donations based on the goodwill of the American people exhibited in part in the aftermath of the killing of African American George Floyd in May 2020 Such donations would far outstrip the cost to design engineer and erect the memorial that these excess funds would be donated directly to our historically black colleges and universities a national treasure

*Reimagining Empire in India* Andrea Major,2025-01-09 This book explores debates about East India Company colonialism that took place on the lecture circuits of Britain in the meeting houses of Calcutta and at the Mughal court in Delhi in the late 1830s and 1840s In the decades that followed the Emancipation Act 1833 British abolitionists and colonial philanthropists turned their attention to conditions across the empire sometimes collaborating with colonised groups to challenge the impositions and iniquities of British colonial rule and sometimes prescribing their own vision of how an imperial relationship should look This book uses the travels experiences and activism of anti slavery lecturer and East India reformer George Thompson as a starting point for a wider exploration and reassessment of the ways in which Company rule in India was challenged in the decades before the Indian Uprising of 1857 An important organiser in the campaign for East India reform as the main spokesperson for the Aborigines Protection Society and a champion of the causes of Indian rulers such as Pratap Singh and Bahadur Shah Zafar Thompson was also a flawed character As a paid agent he was remunerated for his activism and accusations of pecuniary self interest were never far away His story therefore offers important insights into the limitations of early anti colonial sentiment and the problems of cosmopolitan collaboration in colonial contexts By exploring early Victorian debates about India s commercial potential role in the imperial labour market and place within an increasingly interconnected post emancipation empire the book seeks to contextualise evolving ideas regarding Britain s humanitarian responsibilities towards her fellow subjects in the East and how these connected with and were superseded by nascent forms of Indian anti colonialism political protest and civic activism
