Online Read Aloud Stories For Kids:

Reading, Writing, and Literacy 2.0 Denise Johnson, 2014 In today's high stakes testing environment integrating technology into the curriculum is often seen as something extra or for use with a few special projects With the growth in Internet use by even the youngest children educators urgently need a practical introduction to online literacy and reading comprehension Reading Writing and Literacy 2.0 offers that and more by providing tools and teaching strategies for incorporating online reading and writing into classroom learning as well as a host of web resources that teachers can draw on to make this happen All this without endless hours of searching Denise Johnson's book connects to the Common Core State Standards and is organized around the Technological Literacy Assessment of the National Assessment of Education Progress NAEP which focuses on three areas that characterize a technologically literate person knowledge capabilities and critical thinking and decision making This resource provides everything reading teachers need to begin using technology to deepen and enrich literacy learning for all students In addition the author maintains a companion blog to update and add helpful teaching links Book Features An explanation of the concept and practices of literacy 2.0 and how it differs from literacy 1.0 Specific examples and resource links for using technology with diverse learners in the K-8 classroom including translation sites and multilingual materials Examples of teacher to student and student to student wiki and blog interactions Companion blog offers ongoing support including links to resources new teaching tools classroom examples and more There are many things that I love about this book It is written with a voice wise to both the opportunities and the challenges of classroom teaching It also contains a vast number of ideas that can be immediately used in your classroom Of course too it describes effective teaching of new literacies with so many new technologies In addition it begins by providing a clear and compelling framework to put all of the upcoming ideas into a package that will make perfect sense to any teacher From the Foreword by Donald J. Leu Neag Chair in Literacy and Technology University of Connecticut Neag School of Education Written in a clear and practical format this book weaves research based practices across print and digital literacy worlds into engaging learning communities for younger and older readers alike Denise Johnson's innovative lessons and assessment ideas provide step by step supports for designing curriculum in a Web 2.0 world Julie Coiro University of Rhode Island

The Joy of Children's Literature Denise Johnson, 2023-12-18 This book provides in depth coverage of children's literature with integrated reading methods in a concise accessible format Johnson emphasizes that reading writing discussing and finding pleasure in children's books are essential tools in being able to recognize and recommend literature and being able to share the joy of children's literature with children themselves This fully updated third edition includes up to date research new book titles within each chapter a greater focus on diversity and inclusion and new sections on Activities for Professional Development and Print and Online Resources

Teaching Children's Literature Christine H. Leland, Mitzi Lewison, Jerome C. Harste, 2022-11-17 Now in its third edition this indispensable text offers a critical

perspective on how to integrate children's literature into the curriculum in effective purposeful ways. Structured around three mantras that build on each other: Enjoy, Dig deeply, Take action, the book is rich with real examples of teachers implementing critical pedagogy and tools to support students' development as enthusiastic readers and thinkers. The materials and practical strategies focus on issues that impact children's lives, building from students' personal experiences and cultural knowledge by using language to question the everyday world, analyze popular culture and media, understand how power relationships are socially constructed, and consider actions that can be taken to promote social justice. Each chapter features classroom vignettes showcasing the use of literature and inviting conversation, three key principles elaborating the main theme of the chapter, and connecting theory with practice and related research on the topics and their importance for curriculum. Thoroughly revised, the third edition includes new recommendations for teaching with a critical edge and exploring alternative approaches to standardized assessment. With more attention to culturally and linguistically diverse learners and addressing new topics such as censorship and controversial texts, the new edition is essential for courses on teaching children's literature and English Language Arts methods and for every preservice elementary and middle school English teacher. A companion website to enrich and extend the text includes an annotated bibliography of literature selections, suggested text sets, resources by chapter, ideas for professional development, and recommendations for further reading.
