Paradise Lot Eric Toensmeier, Jonathan Bates, 2013-02-08 In this vivid and engaging work Eric Toensmeier entices us with his journey as an example explaining what to do and what mistakes to avoid to develop our own versions of an edible urban paradise. Toby Hemenway author of *Gaia's Garden*. When Eric Toensmeier and Jonathan Bates moved into a duplex in a run down part of Holyoke, Massachusetts, the tenth of an acre lot was barren ground and bad soil peppered with broken pieces of concrete, asphalt and brick. The two friends got to work designing what would become not just another urban farm but a permaculture paradise replete with perennial broccoli, paw paws, bananas and moringa. All told, more than two hundred low-maintenance edible plants in an innovative food forest on a small city lot. The garden intended to function like a natural ecosystem with the plants themselves providing most of the garden's needs for fertility, pest control and weed suppression. Also features an edible water garden, a year-round unheated greenhouse, tropical crops, urban poultry and even silkworms. In telling the story of *Paradise Lot*, Toensmeier explains the principles and practices of permaculture, the choice of exotic and unusual food plants, the techniques of design and cultivation, and of course the adventures, mistakes and do-overs in the process. Packed full of detailed useful information about designing a highly productive permaculture garden, *Paradise Lot* is also a funny and charming story of two single guys, both plant nerds, with a wild plan to realize the garden of their dreams and meet women to share it with. Amazingly, on both counts they succeed. This is permaculture for the rest of us. Best of all, *Paradise Lot* is fun to read. It overflows with love, love of plants, love of land, love of adventuring on the edge of knowledge and love of living. It's hard to put down. I read it in two large gulps. Carol Deppe, author of *The Resilient Gardener* and *Breed Your*
