The College Handbook, 1989 **Tests in Print III** James V. Mitchell, 1983 *Teaching the Gifted and Talented in the Mathematics Classroom* Kevin G. Bartkovich, William C. George, 1980

As part of the Educating Gifted and Talented Students series the booklet offers strategies for teaching mathematics to gifted and talented students. Methods for identifying mathematical ability are reviewed and a two stage method of identification is highlighted which involves screening students in an already chosen grade through two different measures of mathematical aptitude. General approaches are considered including enrichment, busy work, general academic enrichment and cultural enrichment, specific academic enrichment and educational acceleration. Detailed are procedures for implementing teaching strategies fast paced mathematics class and individualized classroom approach found successful in the Study of Mathematically Precocious Youth. Also addressed are program evaluation, teacher selection, textbook selection and other accelerative options.

SBH Wrestling with Change Lew Romagnano, 1994 In *Wrestling with Change* Lew Romagnano details his and a colleague's experiences transforming two ninth grade general mathematics classrooms into problem centered environments. Practicing mathematics teachers will recognize elements of their own work in the story told here. Prospective teachers and teacher educators will find themselves in real mathematics classrooms via detailed vignettes of classroom events and the planning that led to them. Researchers of teaching will discover arguments built from a carefully constructed conceptual framework and rigorous qualitative research methods. Moreover readers will find a different interpretation of the work of teachers who are wrestling with change. They will find evidence that some of the difficulties that Romagnano and his colleague encountered were not simply problems that could be solved by diligent work. They were in fact dilemmas for which these teachers found no clear solutions only equally flawed alternative courses of action. To accomplish the goal of teaching real mathematics they had to manage the dilemmas of
