Ornamental Grasses and Grasslike Plants A. J. Oakes, 2012-12-06 The Gramineae or grass family is second in size only to the Compositeae or sunflower family It is among the most important plant families in the world The major food crops of the world are found in the grass family From time immemorial grasses have provided food and shelter for humanity domesticated livestock and wildlife without grasses these forms of life might cease to exist The grass family is large in size diverse in habit and ubiquitous in distribution Earth would be bleak and bare indeed in the absence of this life sustaining plant family In addition to its economic and industrial value the grass family has some ornamental value It provides us with physical sustenance and gives us much pleasure and satisfaction in its ornamental forms The purpose of this book is to point out the value and usefulness of grasses as ornamentals and to delineate their attributes and uses in the home in the garden and in the landscape Ornamental grasses serve a unique and significant purpose in ornamental horticulture Horticulturists other plant scientists and nursery personnel are more fully aware of the value and usefulness of grasses as ornamentals than is the general public It is mainly for this reason that this work is directed toward the home gardener and the scientist alike in the hope of enhancing reader appreciation of the role grasses play in ornamental horticulture
