*Our Politics, Our Selves?* Peter Digeser, 1995-04-17 Is statecraft soulcraft Should we look to our souls and selves in assessing the quality of our politics Is it the business of politics to cultivate shape or structure our internal lives Summarizing and answering the major theoretical positions on these issues Peter Digeser formulates a qualified permission to protect or encourage particular forms of human identity Public discourse on politics should not preclude talk about the role of reason in our souls or the importance of wholeness and community to our selves or the significance of autonomy for individuals However those who seek to place only their own conception of the self or soul within the reach of politics are as mistaken as those who would completely preclude such matters from the political realm In proposing this view Digeser responds to communitarians classical political rationalists and genealogists who argue that liberal culture fragments debases or normalizes our selves He also critically analyzes perfectionist liberals who justify liberalism by virtue of its ability to cultivate autonomy and authenticity as well as liberal neutralists who wish to avoid altogether the problem of selfcraft All these he argues fall short in some way in defining the extent to which politics should be concerned with the self Liberalism Versus Conservatism François B. Gérard, 2000 Everyone eschews labels yet we all seem to possess them in the minds of legions of politicians marketers and even the ever peering government We are being targeted daily by flaming liberals left wing liberals right wing conservatives compassionate conservatives religious conservatives and liberals pinko liberals middle of the road liberals conservatives and liberals pinko liberals middle of the road liberals and conservatives and of course by neoconservatives and neoliberals The search is on for kindred souls the types who will open their wallets to support whatever it is the hucksters are peddling But what to these concepts mean and do their torchbearers grasp the underlying philosophies or do they care This bibliography lists over hundreds of entries under each category which are then indexed by title an author

**Managing with Integrity** Augustine Chennattu, 2020-04-06 Managing with Integrity challenges the readers to explore different perspectives on and conceptions of corporate ethics It is situated within the broader context of the emerging interests of the people of India to eradicate corporate unethical conduct The massive protest against corporate unethical conduct and public opinion puts leaders top managers and employees under strong social and political pressure This book aims at articulating arguments for the necessity of incorporating personal integrity formation along with codes of ethical conduct to reduce unethical corporate activity more steadily and effectively This book is an ethical guide for managers employees politicians clergy candidates for priesthood and business students equipping them to eradicate corporate unethical conduct from all spheres of life Identity, Narrative and Politics Maureen Whitebrook, 2014-04-04 Identity Narrative and Politics argues that political theory has barely begun to develop a notion of narrative identity instead the book explores the sophisticated ideas which emerge from novels as alternative expressions of political understanding This title uses a broad international selection of Twentieth Century English language works by writers such as Nadine

Gordimer and Thomas Pynchon The book considers each novel as a source of political ideas in terms of content structure form and technique The book assumes no prior knowledge of the literature discussed and will be fascinating reading for students of literature politics and cultural studies *NAFTA Revisited* Paul Rich,Guillermo de los Reyes,1997 The contrast between the benefits which the North American Free Trade Area NAFTA was supposed to bring to Mexico and the actual consequences is the subject of thi s incisive analysis

The author s project penetrates two renewals The first is the revitalization of interest in Oakeshott and the second is the renewal of democratic theory which began in the 1980s In respect to this latter renewal the book engages the deliberative turn in democratic theory These revivals create the context for this new look at Oakeshott To state the matter as a problem one might say that in light of new and fecund democratic theory it is a problem for political theory if one of the most important political theorists of the twentieth century is left out of the discourse insofar as he has something relevant to say about deliberative democracy It is of no small importance that almost all the work in democratic theory being done these days is of the deliberative discursive kind or responses to it That is deliberative theory is driving the agenda of democratic theory The author argues that Oakeshott does indeed have something relevant to say which is applicable to this democratic theory

Charles Taylor Mark Redhead,2002 An examination and critique of the theoretical and political efforts of Taylor to promote deep diversity as an antidote to the process of political fragmentation in general and specifically in his home of Quebec Redhead political theory Oregon State U argues that Taylor s opposition to Quebecois separatists is equally rooted in a political theory of communitarian liberalism his political activities within the New Democratic Party of Canada and Quebec his understanding of his Catholic faith and his experiences growing up in an Anglo French household Redhead argues that Taylor s philosophy ultimately fails to address questions of nationalist projects that simplify identity or questions of openness to different moral ontologies **The Philosophical Review** ,1995 *Proceedings and Addresses of the American Philosophical Association* American Philosophical Association,1995 List of members in v 1 **ICSSR Journal of Abstracts and Reviews** Indian Council of Social Science Research,1997 **The British National Bibliography** Arthur James Wells,1996
