## **Outcast Majority Development Youth Africa:**

The Outcast Majority Marc Sommers,2015-12-01 The Outcast Majority invites policymakers practitioners academics students and others to think about three commanding contemporary issues war development and youth in new ways The starting point is the following irony while African youth are demographically dominant most see themselves as members of an outcast minority The irony directly informs young people s lives in war affected Africa where differences separating the priorities of youth and those of international agencies are especially prominent Drawing on interviews with development experts and young people Marc Sommers shines a light on this gap and offers guidance on how to close it He begins with a comprehensive consideration of forces that shape and propel the lives of African youth today particularly those experiencing or emerging from war They are contrasted with forces that influence and constrain the international development aid enterprise The book concludes with a framework for making development policies and practices significantly more relevant and effective for youth in areas affected by African wars and other places where vast and vibrant youth populations reside

We the Young Fighters Marc Sommers,2023-10 We the Young Fighters is at once a history of a nation the story of a war and the saga of downtrodden young people and three pop culture superstars Reggae idol Bob Marley rap legend Tupac Shakur and the John Rambo movie character all portrayed an upside down world where those in the right are blamed while the powerful attack them Their collective example found fertile ground in the West African nation of Sierra Leone where youth were entrapped inequality was blatant and dissent was impossible When warfare spotlighting diamonds marijuana and extreme terror began in 1991 military leaders exploited the trio s transcendent power over their young fighters and captives Once the war expired youth again turned to Marley for inspiration and Tupac for friendship Thoroughly researched and accessibly written We the Young Fighters probes terror based warfare and how Tupac Rambo and especially Bob Marley wove their way into the fabric of alienation resistance and hope in Sierra Leone The tale of pop culture heroes radicalizing warfare and shaping peacetime underscores the need to engage with alienated youth and reform predatory governments The book ends with a framework for customizing the international response to these twin challenges *Conceptualizations of*

*Africa* Abdul Karim Bangura,JP Afamefuna Ifedi,2025-02-27 This book discusses how Africa has been understood and defined across various academic fields Building on the influential works of Valentin Yves Mudimbe and more recent studies by Axel Fleisch and Rhiannon Stephens this book bridges previous limitations by offering a comprehensive interdisciplinary analysis Each chapter examines the conceptualization of Africa within a specific discipline balancing local and global perspectives blending competing viewpoints and providing suggestions for future research The book will be essential for students scholars and researchers interested in a better understanding of the diverse and complex narratives that shape our knowledge of Africa and its intellectual heritage

**The Fabric of Peace in Africa** Pamela Aall,Chester A. Crocker,2017-06-05 Africa has experienced dozens of conflicts over a variety of issues during the past two decades Responding to these conflicts requires

concerted action to manage the crises the violence the political discord and the humanitarian consequences of prolonged fighting It is also necessary to address the long term social and economic impacts of conflict to rebuild communities societies and states that have been torn apart To accomplish this requires the involvement of institutions and groups rarely considered in formal official African conflict management activities schools universities religious institutions media commercial enterprises legal institutions civil society groups youth women and migrants These groups and organizations have an important role to play in building a sense of identity fairness shared norms and cohesion between state and society all critical components of the fabric of peace and security in Africa This volume brings together leading experts from Africa Europe and North America to examine these critical social institutions and groups and consider how they can either improve or impede peaceful conflict resolution The overarching questions that are explored by the authors are What constitutes social cohesion and resilience in the face of conflict What are the threats to cohesion and resilience And how can the positive elements be fostered and by whom The second of two volumes on African conflict management capacity by the editors The Fabric of Peace in Africa Looking beyond the State opens new doors of understanding for students scholars and practitioners focused on strengthening peace in Africa the first volume Minding the Gap African Conflict Management in a Time of change focused on the role of mediation and peacekeeping in managing violence and political crises

**The Scramble for Europe** Stephen Smith, 2019-06-04 From the harrowing situation of migrants trying to cross the Mediterranean in rubber dinghies to the crisis on the US Mexico border mass migration is one of the most urgent issues facing our societies today At the same time viable solutions seem ever more remote with the increasing polarization of public attitudes and political positions In this book Stephen Smith focuses on young Africa 40 per cent of its population are under fifteen and a dramatic demographic shift Today 510 million people live inside EU borders and 1.25 billion people in Africa In 2050 450 million Europeans will face 2.5 billion Africans five times their number The demographics are implacable The scramble for Europe will become as inexorable as the scramble for Africa was at the end of the nineteenth century when 275 million people lived north and only 100 million lived south of the Mediterranean Then it was all about raw materials and national pride now it is about young Africans seeking a better life on the Old Continent the island of prosperity within their reach If Africa's migratory patterns follow the historic precedents set by other less developed parts of the world in thirty years a quarter of Europe's population will be African Europeans Addressing the question of how Europe can cope with an influx of this magnitude Smith argues for a path between the two extremes of today's debate He advocates migratory policies of good neighbourhood equidistant from guilt ridden self denial and nativist egoism This sobering analysis of the migration challenges we now face will be essential reading for anyone concerned with the great social and political questions of our time
