Outside The Lines Issues In Interdisciplinary Research:

Outside the Lines Liora Salter, Alison Hearn, 1997-01-16 Contributors to this collection address the ways in which interdisciplinarity is defined positioned and handled by researchers universities and critics and examine such topics as myths of interdisciplinarity postmodern critiques of interdisciplinarity interdisciplinarity and research grant allocation women's studies Canadian studies environmental studies and emerging disciplines The collection combines a theoretical examination of disciplinarity and interdisciplinarity as forms of knowledge production and organization with practical information about the basic difficulties and conundrums involved in the practice of interdisciplinary research *The Oxford Handbook of Multimethod and Mixed Methods Research Inquiry* Sharlene Nagy Hesse-Biber, Burke Johnson, 2015 Offering a variety of innovative methods and tools The Oxford Handbook of Multimethod and Mixed Methods Research Inquiry provides the most comprehensive and up to date presentation on multi and mixed methods research available Written in clear and concise language by leading scholars in the field it enhances and disrupts traditional ways of asking and addressing complex research questions Topics include an overview of theory paradigms and scientific inquiry a guide to conducting a multi and mixed methods research study from start to finish current uses of multi and mixed methods research across academic disciplines and research fields the latest technologies and how they can be incorporated into study design and a presentation of multiple perspectives on the key remaining debates Each chapter in the volume is structured to include state of the art research examples that cross a range of disciplines and interdisciplinary research settings In addition the Handbook offers multiple quantitative and qualitative theoretical and interdisciplinary visions and praxis Researchers faculty graduate students and policy makers will appreciate the exceptional timely and critical coverage in this Handbook which deftly addresses the interdisciplinary and complex questions that a diverse set of research communities are facing today

[Educational Outcomes for the Canadian Workplace](#) Jane Stobo Gaskell, Kjell Rubenson, 2004-01-01 Educational Outcomes for the Canadian Workplace explores how educational programs are changing which skills matter in the economy and how policy has responded to the educational and economic pressures of the 1990s **Qualitative Research in European Migration Studies** Ricard Zapata-Barrero, Evren Yalaz, 2018-06-19 This open access book covers the main issues challenges and techniques concerning the application of qualitative methodologies to the study of migration It discusses theoretical epistemological and empirical questions that must be considered before during and after undertaking qualitative research in migration studies It also covers recent innovative developments and addresses the key issues and major challenges that qualitative migration research may face at different stages i e crafting the research questions defining approaches developing concepts and theoretical frameworks mapping categories selecting cases dealing with concerns of self reflection collecting and processing empirical evidence through various techniques including visual data dealing with ethical issues and developing policy research dialogues Each chapter discusses relative strengths and limitations of qualitative research The

chapters also identify the main drivers for qualitative research development in migration studies It is a unique volume as it brings together a multidisciplinary perspective as well as illustrations of different issues derived from the research experience of the recognized authors One additional value of this book is its geographic focus on Europe It seeks to explore theoretical and methodological issues that are raised by distinctive features of the European context This volume will be a useful reference source for scholars and professionals in migration studies and in social sciences as well The publication is also addressed to graduate and post graduate students and more generally to those who embark on the task of doing qualitative research for the first time in the field of migration **Interdisciplinary Research** Allen F. Repko,Rick Szostak,2025-02-21

This book offers a comprehensive systematic presentation of the interdisciplinary research process and the theory that informs it by drawing on student and professional work from a variety of fields The book has been iterative in its development over editions as the authors have learned from the work of instructors and students using it and have adjusted their advice in response Notable changes in the Fifth Edition respond to feedback from the Forum devoted to this book in Issues in Interdisciplinary Studies in 2022 Examples have been updated so most are more contemporary new content has been added on mixed methods and team research to respond to the needs of graduate students and content has been revised throughout to address the current thinking on interdisciplinarity and integration and strategies for achieving common ground as an interdisciplinary research team An instructor website for the book at <http://edge.sagepub.com/repko5e> includes editable PowerPoint slides a test bank and figures and tables from the book

Journal of Engineering Education ,2003 **Alternatives Journal** ,1997 Canadian environmental ideas action varies *Environment, Society and Natural Resource Management* Geoffrey Lawrence,Vaughan Higgins,Stewart Lockie,2001

As greater significance is placed on the relationship between people and their environment it is increasingly acknowledged that few environmental problems can be solved without considering the social context in which they arise But what does it mean to incorporate the social and what types of social sciences are needed This incisive book critically reviews the theoretical perspectives that underlie social scientific contributions to natural resource management and argues for both a greater social science presence and for conceptual and methodological clarity within the social sciences themselves The expert contributors explore how new concepts and approaches can contribute positively to natural resource management They demonstrate how the social sciences can be used as a vehicle to highlight social concerns as well as to foster greater participation co operation and integration among community members natural resource managers and researchers Through detailed case studies from Australasia and the Americas the authors illustrate how different social science perspectives can be utilised The range and variety of views provide a basis for the evaluation of various and often competing disciplinary paradigms within the social sciences This book will undoubtedly contribute to a more sophisticated debate about the place of the social in environmental research It will prove to be of great worth to students and researchers of environmental and social issues to those involved in
