The Outsider's Guide to Speculative Stocks Christopher Bunka,1998 **Indigenous Oral History Manual** Winona Wheeler,Charles E. Trimble,Mary Kay Quinlan,Barbara W. Sommer,2023-09-01 Using examples from Indigenous community oral history projects throughout Canada and the United States this new edition is informed by best practices to show how oral history can be done in different contexts The Indigenous Oral History Manual Canada and the United States the expanded second edition of The American Indian Oral History Manual 2008 contains information about selected Indigenous oral histories legal and ethical issues project planning considerations choosing recording equipment and budgeting planning and carrying out interviews in various settings stewardship of project materials and ways Indigenous communities use oral histories A centerpiece of the book is a collection of oral history project profiles from Canada and the United States that illustrate the range of possibilities that people interested in Indigenous oral history might pursue It emphasizes the importance of community engagement and adhering to appropriate local protocols and ethical standards inviting readers to understand that oral history work can take various forms with people whose cultural heritage has always relied on oral transmission of knowledge The book is ideal for students scholars and Indigenous communities who seek to engage ethically with tribal and First Nations Métis and Inuit communities in oral history work that meets community needs *Making Moral Sense* Logi Gunnarsson,2000-09-18 Is it rational to be moral Can moral disputes be settled rationally Which criteria determine what we have a good reason to do In this innovative book Logi Gunnarsson takes issue with the assumption made by many philosophers faced with the problem of reconciling moral norms with a scientific world view namely that morality must be offered a non moral justification based on a formal concept of rationality He argues that the criteria for the rationality of an action are irreducibly substantive rather than purely formal and that assuming that morality must be given a non moral justification amounts to a distortion of both rationality and morality His discussion includes substantial critical engagement with major thinkers from two very different philosophical traditions and is notable for its clear and succinct account of Habermas discourse ethics It will appeal to anyone interested in practical reason and the rational credentials of morality **Immersive Theater and Activism** Nandita Dinesh,2018-11-30 Immersive theater calls upon audience members to become participants actors and others It traditionally offers binary roles that of oppressor or that of victim and thereby stands the risk of simplifying complex social situations Challenging such binaries this book articulates theatrical grey zones when addressing juvenile detention wartime interventions and immigration processes It presents scripts and strategies for directors and playwrights who want to create theatrical environments that are immersive and pedagogical aesthetically evocative and politically provocative simple and complex **Action Strategies for Deepening Comprehension** Jeffrey D.
