Online Book Vn Madeline Ashby:

The Machine Dynasty Omnibus Madeline Ashby, 2020-08-11 An omnibus edition consisting of all three volumes of Madeline Ashby's epic sci fi masterwork *The Machine Dynasty*. Collects vN iD and ReV vN. Amy Peterson is a von Neumann machine, a self-replicating humanoid robot. For the past five years she has been grown slowly as part of a mixed organic synthetic family. She knows very little about her android mother's past so when her grandmother arrives and attacks her mother, little Amy wastes no time: she eats her alive. Now she carries her malfunctioning granny as a partition on her memory drive and she's learning impossible things about her clade's history, like the fact that the failsafe that stops all robots from harming humans has failed. Which means that everyone wants a piece of her: some to use her as a weapon, others to destroy her. iD: Javier is a self-replicating humanoid on a journey of redemption. Javier's quest takes him from Amy's island, where his actions have devastating consequences for his friend, toward Mecha, where he will find either salvation or death. ReV: The Rapture, which vN were engineered for, finally comes to pass. Now that the failsafe that once kept vN from harming humans has been hacked, all are discovering the promise and the peril of free will. With her consciousness unleashed across computer systems all across the world, the vicious vN Portia stands poised to finally achieve her lifelong dream of bringing humanity to its knees. The old battle between her and her granddaughter Amy comes to an epic conclusion in the war for the very systems that keep the planet running. Can Amy get her family to the stars before Portia destroys every opportunity for escape and freedom? **File Under Science Fiction: Von Neumann Sisters Fail Safe Fail Robot Nation Internet Ex Portia** **Twenty-First Century Science Fiction** David G.
