

## **Exp. 1: PROBLEM DEFINITION**

### **PROPERTY MANAGEMENT SYSTEM**

This is a basic system that will keep record of housing properties available on rent or for sale, and will work as connecting bridge between customer and property sellers.

Due to this system there is no need to visit various places in search of desired property. The information of various properties in various locations can be accessible at one place.

This system will provide a platform to home line property sellers and buyers. This will keep record of land, houses or flats available for sale or on rent with their rates and make this available to customers. Also will keep record of contact information of customer and will send necessary notices and/or reminders to customer.
