## **Mother Madonna Whore The Idealization And Denigration Of Motherhood:**

*Mother, Madonna, Whore* Estela V. Welldon, 1988-01-01 Welldon explores why the quality of their bodies is fundamental to women's psychology how this may lead to self mutilation and how such perverse behavior may also be aimed at objects which women see as their own creations specifically their babies The potential causes and consequences of these conditions including maternal and paternal incest and its frequent aftermath prostitution are also discussed **Constructing**

**Motherhood Identity Against Political Violence** Deniz Ülke Arıboğan, Hamoon Khelghat-Doost, 2023-08-22 This volume offers a nuanced understanding of female agency in political violence by reviewing and analyzing the political construction of motherhood as a form of social agency against political violence committed by both state and non state actors in different parts of the world While the international relations discipline has traditionally viewed the relationship between women and violent actors as an exploitative one this book demonstrates that taking maternal bodies seriously creates important intellectual space to examine the types and kinds of violence the discipline of IR takes seriously and the types and kinds of resistance practiced by mothers but often overlooked at least by male mainstream IR Focusing on motherhood as an agency of change this volume will appeal to scholars in the field of gender and international security think tanks working on political and security affairs social activists policymakers an interested public audience as well as undergraduate and postgraduate students undertaking study or research associated with gender and political violence Mothers in the English Novel

Marjorie McCormick, 1991 McCormick surveys the portrayal of mothers in the English novel from the mid 18th century to the present focusing in successive chapters on the bad mothers in Austen Dickens and Gaskell the transitional mothers in Eliot James and Lawrence and the good mothers in Woolf Forster and Lessing Annotation copyrighted by Book News Inc Portland OR Mothers Accused and Abused Angela Foster, 2018-10-26 Mothers Accused and Abused Addressing Complex

Psychological Needs brings together stories about mothers who are accused of harming and in some cases killing their children children who subsequently harm or kill others and the challenges to professionals who work with them Contributors consider the deeply rooted cycles of neglect and abuse manifested in the childhoods of mothers who only come to our attention when their extreme distress is expressed through their actions By recognising the long standing unmet dependency needs of abused and neglected women the book argues that longer term engagement can prevent a seemingly endless repetition of court hearings and imprisonment and thereby address cycles of neglect With sections on mothers in prison and interventions following child care proceedings Mothers Accused and Abused will be a valuable resource to those working in the criminal and civil justice systems social work and mental health as well as others who in a professional or personal capacity encounter troubled mothers and their children *Gender in Film and the Media* Elżbieta H. Oleksy, Elżbieta Ostrowska, 2000 Authored by an international team of academics Gender in Film and the Media responds to continuing debates about representation and gender in cinema and other media with a particular concentration on the ways in which

they may relate to the Central European context since 1989 The emphasis of these essays on the intersections between social and cultural formations and practices of gender represents an attempt to move beyond the abstractions of the founding texts in this field and to ground theoretical reflection in close textual and contextual analysis This book thus also represents the expansion of cultural exchange between East and West since 1989 which has created new and challenging opportunities to rethink the imaging of gender in national and international frameworks

**On Matricide** Amber Jacobs, 2007 Despite advances in feminism the law of the father remains the dominant model of Western psychological and cultural analysis and the law of the mother continues to exist as an underdeveloped and marginal concept In her radical rereading of the Greek myth Oresteia Amber Jacobs hopes to rectify the occlusion of the mother and reinforce her role as an active agent in the laws that determine and reinforce our cultural organization According to Greek myth Metis Athena's mother was Zeus's first wife Zeus swallowed Metis to prevent her from bearing children who would overthrow him Nevertheless Metis bore Zeus a child Athena who sprang forth fully formed from his head In Aeschylus's Oresteia Athena's motherless status functions as a crucial justification for absolving Orestes of the crime of matricide In his defense of Orestes Zeus argues that the father is more important than the mother using Athena's motherless birth as an example Conducting a close reading of critical works on Aeschylus's text Jacobs reveals that psychoanalytic theorists have unwittingly reproduced the denial of Metis in their own critiques This repression which can be found in the work of Sigmund Freud and Melanie Klein as well as in the work of more contemporary theorists such as Andr  Green and Luce Irigaray has resulted in both an incomplete analysis of Oresteia and an inability to account for the fantasies and unconscious processes that fall outside the oedipal patricidal paradigm By bringing the story of Athena's mother Metis to the forefront Jacobs challenges the primacy of the Oedipus myth in Western culture and psychoanalysis and introduces a bold new theory of matricide and maternal law She finds that the Metis myth exists in cryptic forms within Aeschylus's text uncovering what she terms the latent content of the Oresteian myth and argues that the occlusion of the law of the mother is proof of the patriarchal structures underlying our contemporary social and psychic realities Jacobs's work not only provides new insight into the Oresteian trilogy but also advances a postpatriarchal model of the symbolic order that has strong ramifications for psychoanalysis feminism and theories of representation as well as for clinical practice and epistemology

**Sex and Love in Intimate Relationships** Robert Firestone, Lisa A. Firestone, Joyce Catlett, 2006 In clear language and conceptualization and through the liberal use of case material from therapy sessions the authors show how individuals can be helped to overcome these challenges and become physically and emotionally closer to their partners

**BOOK JACKET Mothers** Jacqueline Rose, 2018-04-17 From one of the most important contemporary thinkers we have a compelling forceful tract about women and motherhood that demands immediate attention Moving commandingly between pop cultural references such as Roald Dahl's Matilda to observations about motherhood in the ancient world from and thoughts about the stigmatization of single mothers in the UK Mothers delivers a groundbreaking

report into something so prevalent we hardly notice A short provocative work that considers how motherhood the object of intense ambivalence of idealization and hatred is the ultimate scapegoat for everything that is wrong with the world

### **Unconscious Gender Priming and Perceptions of Women as Child Molesters in a Sexually Ambiguous**

**Situation** Grace Christine Gibson,1996      *Voices of Authority* Mary L. Poteau-Tralie,1994 This book provides a comprehensive look at the obsessive theme of crime which is most evident in the context of dysfunctional family relationships in Guy de Maupassant's nearly 300 short works A study of the narrative structures points to the presence of a jury like atmosphere throughout highlights an inherent thematic unity in a fragmentary genre and details an artistic sophistication on the part of an author whose works have only recently begun to receive this type of critical re examination in the scholarship of nineteenth century French literature

### **The Journal of Psychohistory ,2000      Fantasies of Fetishism**

Amanda Fernbach,2002 At the dawn of the new millennium Western culture is marked by various fantasies that imagine our future selves and their forms of embodiment These fantasies form part of a rapidly growing cultural discourse about the future of the human form the disappearing boundary between the human and the technological and the cultural consequences of greater human technological integration This book is about those cultural fantasies of fetishism the different forms they take and the various ways in which the transformative processes they depict can reaffirm accepted definitions of identity or reconfigure them in an entirely new fashion But what exactly is fetishism At one level fetish club subcultures spectacularize fetishism as a celebration of difference in which the transformation of the self is paramount and mainstream categories including beliefs about gender sexuality and the body are transgressed However in film feminist and post colonial criticism fetishism's meaning owes much to Freud's interpretation that the fetish stands in for the mother's missing phallus and disavows her sexual difference At the level of critical theory fetishism is almost always regarded as being synonymous with the reproduction of the same the disavowal rather than the pursuit of otherness This book argues that the orthodox interpretation of classical fetishism is not and never has been up to the task of explaining all cultural fetishisms It identifies several different forms of fetishism decadent fetishism magical fetishism matrix fetishism and immortality fetishism and accounts for its sometimes radical and productive edge Ranging widely over texts and cultures Amanda Fernbach skilfully deploys these concepts of fetishism to topics in cultural studies such as sexual difference queer identities computer culture and the post human and as well as to her objects of study cross cultural dressers technofetishists cyberspace cowboys cyborgs geekgirls

*A Feminine Cinematics* Caroline Bainbridge,2008-11-04 This timely book provides new insights into debates around the relationship between women and film by drawing on the work of philosopher Luce Irigaray Arguing that female directed cinema provides new ways to explore ideas of representation and spectatorship it also examines the importance of contexts of production direction and reception

**The Publishers Weekly ,1988      Art Therapy with Offenders** Marian Liebmann,1994 This collection of work on art therapy focuses exclusively on offenders It describes how

the use of art therapy can contribute to an understanding of offenders and to their own understanding of themselves

Narcissism and the Relational World William G. Herron, 1999 Offers a revisionist s view of narcissism reflecting an emphasis on subjectivity in contemporary psychoanalysis Contends that narcissism is an organizing principle for behavior a major motivational force that can be healthy or pathological and that illuminates intricacies of subjectivity for both therapists and patients Establishes the meaning of narcissism then examines it as a developmental process and discusses the workings of narcissism as a personal perspective in the analytic hour and the supervisory hour *Marked Women* Russell
