Motivating Reading Comprehension Allan Wigfield, 2004-05-20 This text discusses motivating reading comprehension covering subjects such as classroom contexts for engaged reading scaffolding for motivation and engagement in reading the cognitive strategies of reading comprehension and science inquiry in the CORI framework Motivating Reading Comprehension John T. Guthrie, Allan Wigfield, Kathleen C. Perencevich, 2004 Concept Oriented Reading Instruction CORI is a unique classroom tested model of reading instruction that breaks new ground by explicitly showing how content knowledge reading strategies and motivational support all merge in successful reading instruction A theoretical perspective engagement in reading frames the book and provides a backdrop for its linkage between hands on science activities and reading comprehension Currently funded by the Interagency Educational Research Initiative IERI this model has been extensively class tested and is receiving national attention that includes being featured on a PBS special on the teaching of reading Key features of this outstanding new volume include Theoretical Focus CORI's teaching framework revolves around the engagement perspective of reading how engaged reading develops and the classroom contexts and motivational supports that promote it Content Area Focus Although science is the content area around which CORI has been developed its basic framework is applicable to other content areas Focus on Strategy Instruction CORI revolves around a specific set of reading strategies that the National Reading Panel 2000 found to be effective In some current CORI classrooms collaborating teachers implement all aspects of CORI and in other classrooms teachers implement just the strategy instruction component Illustrative Vignettes and Cases Throughout the book vignettes and mini case studies convey a situated view of instructional practices for reading comprehension and engagement A detailed case study of one teacher and of the reading progress of her students is featured in one chapter This book is appropriate for graduate and advanced undergraduate students in education and psychology for practicing teachers and for researchers in reading comprehension and motivation Reading to Learn for ELs Ana Taboada Barber, 2016 Gaining knowledge from informational texts is an essential academic skill Yet for too many English Learners this skill is not developed sufficiently and as they move from elementary into middle school the reading gap becomes a knowledge gap This doesn't have to happen researcher Ana Taboada Barber explains if we support ELs reading of informational texts by pairing motivation practices with explicit reading comprehension instruction Taboada Barber shows us that When we make motivation part of reading instruction we show ELs that education is about identity and agency we acknowledge who they are right now and invite them to grow through and by reading The comprehension strategies and motivational practices discussed in this book help us identify tools to use with informational texts that foster curiosity rather than frustration In Reading to Learn for ELs Taboada Barber provides models of her instructional framework for reading informational texts so that reading teachers content area teachers and ESL teachers alike can take on the work of teaching English Learners how to succeed and gain knowledge through reading informational texts Reading Engagement John
