### **Culturally Situated Pedagogies in Hong Kong**

**Kindergartens** Alfredo Bautista, 2026-01-01 This open access book focuses on how to design, implement and evaluate culturally situated pedagogies in Hong Kong kindergartens aligned with traditional expectations, values and norms in Asian societies. The book provides concise, accessible yet rigorous conceptual and theoretical explanations to underpin and justify teachers' pedagogical choices in kindergarten classrooms. The chapters examine the importance of the various learning areas included in the curriculum framework, discussing specific learning objectives, teaching methodologies, appropriate strategies for curriculum integration and examples of class activities. Early Childhood Curriculum in Chinese Societies Weipeng Yang, Hui Li, 2019-03-13 Although Chinese societies have generally become striking as the classic over achievers in international measures of academic performance, there has been no specialised publication exploring early childhood curriculum in Chinese contexts. Through this book, readers will learn more about how the Chinese context and culture collide with educators' beliefs about the right activities for children and educators in early childhood settings. This book will be the first one of its kind to focus on early childhood curriculum in Chinese societies from social context and culture to reforms and practices and finally to the lessons that researchers, policymakers and practitioners could learn as well as future directions. Is play valued? Are young children schooled earlier in Chinese societies? How do Chinese children learn in kindergartens? What is valued by Chinese educators when they implement early childhood curricula? How do Chinese teachers deliver early childhood curricula for their young children? Why were Chinese early childhood curricula implemented in these ways? Answers to these questions and more will be provided in this pioneering book.
