Mothers And Children Feminist Analyses And Personal Narratives:

Mothers and Children Susan E. Chase, Mary Frances Rogers, 2001 Motherhood is a highly personal array of experiences with a uniquely public dimension preoccupying policymakers advice givers health care providers religious leaders child care workers educators and total strangers who feel entitled to judge mothers they see with their children in the neighborhood or on the TV news Chase U of Tulsa and Rogers U of West Florida approach motherhood and mothering as feminist sociologists focusing on questions such as how ideas about motherhood are shaped by social and historical conditions how ideas about motherhood change over time and across social contexts who has the power to make their definitions of motherhood stick and what diverse groups of mothers themselves think Annotation copyrighted by Book News Inc Portland OR *Feminist Mothering* Andrea O'Reilly, 2008-10-09 Feminist Mothering goes beyond critiques of patriarchal motherhood to locate and investigate feminist maternal practices as sites for women s empowerment and social change The contributors see feminist mothering as practices of mothering that seek to challenge and change the norms of patriarchal motherhood that are limiting and oppressive to women For many women practicing feminist mothering offers a way to disrupt the transmission of sexist and patriarchal values from generation to generation Contributors explore the ways in which women integrate activism paid employment nonsexist childrearing practices and non child centered interests in their lives and other caregivers into their children s lives in order to challenge existing societal inequality and create new egalitarian possibilities for women men and families **Embodying the Problem** Jenna Vinson, 2017-12-11 The dominant narrative of teen pregnancy persuades many people to believe that a teenage pregnancy always leads to devastating consequences for a young woman her child and the nation in which they reside Jenna Vinson draws on feminist and rhetorical theory to explore how pregnant and mothering teens are represented as problems in U S newspapers political discourses and teenage pregnancy prevention campaigns since the 1970s Vinson shows that these representations prevent a focus on the underlying structures of inequality and poverty perpetuate harmful discourses about women and sustain racialized gender ideologies that construct women s bodies as sites of national intervention and control Embodying the Problem also explores how young mothers resist this narrative Analyzing fifty narratives written by young mothers the recent NoTeenShame social media campaign and her interviews with thirty three young women Vinson argues that while the stigmatization of teenage pregnancy and motherhood does dehumanize young pregnant and mothering women it is at the same time a means for these women to secure an audience for their own messages More information on the author s website <https://jennavinson.com> Midwifery and Public Health Pádraig Ó Lúanaigh, Cindy Carlson, 2005-01-01 An up to date discussion of community and public health care in relation to midwifery practice using real life scenarios in a range of hot topic areas Explores the role the midwife can play in providing and improving public health Reflects current policy on public health issues Clear focus on practice and implementation of public health initiatives The first book to integrate public health with midwifery Refiguring Motherhood Beyond Biology

Valerie Renegar, Kirsti Cole, 2023-01-31 This book unpacks and interrogates dominant constructions of mothering making use of interdisciplinary ideological and theoretical perspectives to investigate how new rhetorics of mothering can expand the realm of maternal care givers beyond the biological definitions of motherhood This diverse collection is at the cutting edge of rhetoric feminism and motherhood studies and the chapters challenge the confines of biological parenting as heteronormative within the neo liberal nuclear family The contributors examine how despite the diversity of parental relationships many are excluded by the understanding of mothers biologically tied to their children The volume seeks to expose the underpinnings of biological primacy and argues that 21st century families and familial circumstances are ill served by biological ideology Topics include Re Imagining Queer Black Motherhood Chicana Feminist approaches to reproductive justice the commercialization and medicalization of infertility and ableism and motherhood This is a unique and fascinating book suitable for students and scholars in gender studies sexuality studies communication studies sociology and cultural studies

Motherhood in the Media Barbara Barnett, 2016-02-19 This book examines contemporary media stories about women who kill their children By analyzing media texts motherhood blogs and journalistic interviews the book seeks to understand better maternal violence and the factors that lead women to harm their children The central thesis of this book is that media practices have changed dramatically during the past 50 years as has society's views on appropriate feminine behavior yet definitions of characteristics of good mothers remain largely defined by 1950s sitcoms Victorian ideals and Christian theology The book contends that in spite of media saturation in American society and the media's increased opportunities to tell complex and nuanced stories news media narratives continue to situate maternal violence as rare unfathomable and unpredictable The news media's shift in focus from public service to profit making industry has encouraged superficial coverage of maternal violence as reporters look for stories that sell not stories that explain Motherhood blogs in contrast offer an opportunity for women to tell their own stories about motherhood based on experience Interviews with journalists offer insights into how the structure of their jobs dictates media coverage of this intimate form of violence
