Open Marxism Werner Bonefeld, Richard Gunn, Kosmas Psychopedis, 1993-01-01

Marx's Capital, Method and Revolutionary Subjectivity Guido Starosta, 2015-11-24 In Marx's Capital Method and Revolutionary Subjectivity Guido Starosta develops a materialist inquiry into the social and historical determinations of revolutionary subjectivity Through a methodologically minded critical reconstruction of the Marxian critique of political economy from the early writings up to the Grundrisse and Capital this study shows that the outcome of the historical movement of the objectified form of social mediation which has turned into the very alienated subject of social life i.e. capital is to develop as its own immanent determination the constitution of the self abolishing working class as a revolutionary subject A crucial element in this intellectual endeavour is the focus on the intrinsic connection between the specifically dialectical form of social science and its radical transformative content

**Marx's Concept of the Alternative to Capitalism** Peter Hudis, 2012-07-25 This is the first book length study of Marx's concept of the alternative to capitalism It shows that his critique of capital flowed from a commitment to a specific vision of the kind of human relations that define a new society

**Dialectics of the Ideal**, 2013-11-28 In Dialectics of the Ideal Evald Ilyenkov and Creative Soviet Marxism Levant and Oittinen provide a window into the subterranean tradition of creative Soviet Marxism which developed on the margins of the Soviet academe and remains largely outside the orbit of contemporary theory in the West With his activity approach E.V. Ilyenkov its principal figure in the post Stalin period makes a substantial contribution toward an anti reductionist Marxist theory of the subject which should be of interest to contemporary theorists who seek to avoid economic and cultural reductionism as well as the malaise of postmodern relativism This volume features Levant's translation of Ilyenkov's Dialectics of the Ideal 2009 which remained unpublished until thirty years after the author's tragic suicide in 1979 Contributors include Evald Ilyenkov Tarja Knuuttila Alex Levant Andrey Maidansky Vesa Oittinen Paula Rauhala and Birger Siebert

**Illusion and Fetishism in Critical Theory** Vasilis Grollios, 2023-12-01 Through the negative dialectics of Theodore Adorno Illusion and Fetishism in Critical Theory offers an examination of Nietzsche Benjamin Castoriadis and the Situationists who put the concept of illusion at the forefront of their philosophical thought Vasilis Grollios argues that these political philosophers except Castoriadis have up to now been wrongly considered by many scholars to be far from the line of thinking of negative dialectics Critical Theory and the early Frankfurt School Open Marxist tradition He illustrates how these thinkers focused on the illusions of capitalism and attempted to show how capitalism by its innate rationale creates social forms that are presented as unavoidable and universal yet are historically specific and of dubious sustainability Providing a unique overview of concepts including illusion totality fetishization contradiction identity thinking and dialectics Grollios expertly reveals how their understanding of critique can help us open cracks in capitalism and radicalize democratic social practice today Illusion and Fetishism in Critical Theory is a must read for scholars of political theory and political philosophy critical theory the Frankfurt School sociology and democratic theory

*Immanent Externalities* Rebecca Carson, 2023-04-24 Environmental degradation crises in care and the predations of finance capital impose new challenges to human reproduction It is imperative to understand their roots in capitalism But how best to do so This book develops the concept of immanent externalities to grasp the non capitalist life processes produced by and necessary for capitalist reproduction Immanent Externalities thus considers the category of reproduction by means of a philosophical re reading of the three volumes of Marx's Capital In doing so the book locates capitalism's fundamental contradiction as that between the reproduction of profit driven activity and ecologically situated human life suggesting new orientations for theory and practice today

**Open Marxism, Volume 3** Werner Bonefeld, Richard Gunn, John Holloway, Kosmas Psychopedis, 1995-06-01

The Labour Debate Ana C. Dinerstein, Mike Neary, 2002 Through a radical reinterpretation of Marx's social theory the contributors to this unique book revitalize the concept and reality of labour as the fundamental constitutive principle of the social world This refocus is inspired by the real changes in the forms of identity organization and struggle taking place in response to the global restructuring of capitalist work

**Dialectics in World Politics** Shannon Brincat, 2017-10-02 This volume explores the conceptual methodological and praxeological aspects of dialectical analysis in world politics As dialectics has remained an under theorised analytical tool in international relations this volume provides a critical resource for those seeking to deploy

dialectics in their own research by showcasing its effectiveness for understanding and transforming world politics  
 Contributions demonstrate a number of innovative ways in which dialectical thinking can be of benefit to the study of world politics by covering three thematic concerns i conceptual or meta theoretical dimensions of dialectics ii methodological features and general principles of dialectical approaches and iii applications and or case studies that deploy a dialectical approach to world politics Canvassing a diverse range of dialectical approaches on key issues in world politics from global security to postcolonial resistances from the theoretical problems of reification and complexity to the study of the global futures and the intercultural historical expressions of dialectics Dialectics and World Politics offers key insights into the social forces and contradictions that are generative of transformation in world politics and yet routinely downplayed in orthodox approaches to international relations Each chapter demonstrates how dialectics can be utilized more broadly in the discipline and deployed in a critical fashion as part of an emancipatory project This book was originally published as a special issue of Globalizations      *Marxism and Struggle* Mary Davis, Marjorie Mayo, 1998      *Roots, Rites and Sites of Resistance* Leonidas Cheliotis, 2010-08-20 Which practices count as resistance Why where and how does resistance emerge When is resistance effective and when is it truly progressive In addressing these questions this book brings together novel theoretical and empirical perspectives from a diverse range of disciplinary and geographical locales      *Global Political Economy: Theories of the global political economy* Bill Dunn, 2009 A masterly explanation of events and upheavals in the world economy over the last 100 years      **Change the World Without Taking Power** John Holloway, 2005-06-20 Offers a radical rethinking of Marx's concept of revolution that shows how we can bring about social and political change today      *The History of Marxism: Marxism in Marx's day* Eric J. Hobsbawm, 1982      **The New Dialectic and Marx's Capital** Christopher John Arthur, 2004 This book argues that the dialectic of Marx's Capital has a systematic rather than historical character It sheds new light on Marx's great work while going beyond it in many respects      **Scottish Economic & Social History**, 1994
