Commentationes Scientiarum Socialium, 1972 Revisiting Organization Theory Regine Bendt, 2005 This book deals with organizational discourse and its gender subtexts. The two main research questions guiding this book are first according to what notions and patterns are males and females reproduced within organizational texts and more crucially according to what gender subtext is organizational discourse re framed. Second how does this gender subtext discourse influence change and transform organizational discourse and contribute to the development of a new field or space for organizational research that transgresses mainstream disciplinary borders. In pursuing these questions deconstructively this book stresses on the processes and patterns according to which organizational discourse and thus of course organizational scholars reproduce gender. **The National Union Catalogs, 1963-**, 1964 **National Union Catalog**, 1973 The Bureaucrat, 1990
