**Origins** Deborah B. Haarsma, Loren D. Haarsma, 2011 When it comes to the history of the universe many believe that science and faith are mutually exclusive But in this revised version of Origins physics professors Loren and Deborah Haarsma explore what God's Word and God's world teach us about creation evolution and intelligent design Clearly explaining the science the authors focus on areas where Christians agree They also present the strengths and weaknesses of areas where Christians differ Origins helps you develop a deeper understanding of the origins of the universe and sort out your own views on faith and science Small group discussion questions follow each chapter A companion website provides resources for further study [Four Views on Creation, Evolution, and Intelligent Design](#) Zondervan, 2017-11-21 Evolution or the broader topic of origins has enormous relevance to how we understand the Christian faith and how we interpret Scripture Four Views on Creation Evolution and Intelligent Design presents the current state of the conversation about origins among evangelicals representing four key positions Young Earth Creationism Ken Ham Answers in Genesis Old Earth Progressive Creationism Hugh Ross Reasons to Believe Evolutionary Creation Deborah B Haarsma BioLogos Intelligent Design Stephen C Meyer The Discovery Institute The contributors offer their best defense of their position addressing questions such as What is your position on origins understood broadly to include the physical universe life and human beings in particular What do you take to be the most persuasive arguments in defense of your position How do you demarcate and correlate evidence about origins from current science and from divine revelation What hinges on answering these questions correctly This book allows each contributor to not only present the case for his or her view but also to critique and respond to the critiques of the other contributors allowing you to compare their beliefs in an open forum setting to see where they overlap and where they differ

**Laying Down Arms to Heal the Creation-Evolution Divide** Gary N. Fugle, 2015-01-01 Battles over creation or evolution have been perpetuated for years by vocal Christians and scientists alike But conflict has never been the only choice Laying Down Arms to Heal the Creation Evolution Divide presents a comprehensive uplifting alternative that brings together an orthodox biblical view of a sovereign Creator God and the meaningful discoveries of modern evolutionary biology Gary Fugle offers unique insights into this debate from his dual perspective as both an award winning biology professor and a committed leader in conservative evangelical churches In focusing on the stumbling blocks that surround creation and evolution debates Fugle sensitively addresses the concerns of skeptical Christians and demonstrates how believers may celebrate evolution as a remarkable aspect of God's glory He describes how the mainstream scientific community as well as numerous Christians may alter current approaches to eliminate conflicts He explains conservative readings of early Genesis that respect both the inerrant words of Scripture and the evolutionary revelations in God's natural creation This book is for individuals who sense that biblical Christian faith and evolution are compatible without compromising core convictions If given good reasons to do so are we willing to lay down our arms to affirm an encompassing vision for the future **When**

**Did Sin Begin?** Loren Haarsma,2021-08-17 The question of the historical Adam is a flashpoint for many evangelical readers and churches Science and theology scholar Loren Haarsma who has studied written and spoken on science and faith for decades shows it is possible both to affirm what science tells us about human evolution and to maintain belief in the doctrine of original sin Haarsma argues that there are several possible ways of harmonizing evolution and original sin taking seriously both Scripture and science He presents a range of approaches without privileging one over the others examining the strengths and challenges of each

**The Origin of Humanity and Evolution** Andrew Ter Ern Loke,2023-12-28 Addressing the intense debate in science and religion in light of evolutionary population genetics Andrew Ter Ern Loke argues that the theory of evolution as understood by mainstream scientists is compatible with Scripture Loke asserts that resolving this area of perceived conflict would greatly benefit both scientific and religious communities and contribute to the spiritual quest of humankind Whilst affirming that the Bible should be interpreted according to proper hermeneutical principles such as considering the literary genre literary context meaning of words grammatical relationship and the background and concerns of the ancient authors this book also assesses the scientific data according to proper mainstream scientific methodology Having accomplished these tasks it proposes a model which argues that all humans today have Adam as common ancestor even though this ancestor is not our sole ancestor

Christian Scholar's Review ,2009      *Evolutionary Creation* Denis O. Lamoureux,2008-06-15 In this provocative book evolutionist and evangelical Christian Denis O Lamoureux proposes an approach to origins that moves beyond the evolution versus creation debate Arguing for an intimate relationship between the Book of God s Words and the Book of God s Works he presents evolutionary creation a position that asserts that the Father Son and Holy Spirit created the universe and life through an ordained and sustained evolutionary process This view of origins affirms intelligent design and the belief that beauty complexity and functionality in nature reflect the mind of God Lamoureux also challenges the popular Christian assumption that the Holy Spirit revealed scientific and historical facts in the opening chapters of the Bible He contends that Scripture features an ancient understanding of origins that functions as a vessel to deliver inerrant and infallible messages of faith Lamoureux shares his personal story and his struggle in coming to terms with evolution and Christianity Like many he lost his boyhood faith at university in classes on evolutionary biology After graduation he experienced a born again conversion and then embraced belief in a literal six day creation Graduate school training at the doctoral level in both theology and biology led him to the conclusion that God created the world through evolution Lamoureux closes with the two most important issues in the origins controversy the pastoral and pedagogical implications How should churches approach this volatile topic And what should Christians teach their children about origins      **The Creation/Evolution Controversy**
