

# Positive Parenting

**ZERO TO THREE**  
Early connections last a lifetime.

Positive parenting describes a set of parental behaviors that foster a child's capacity to love, trust, explore and learn. The goal of positive parenting is to help parents guide their children's healthy development in the context of the family's culture. Key elements of positive parenting include the ability to:

Understand or imagine the child's point of view, especially during challenging moments.

Respond with interest and sensitivity to the child's cues.

Recognize that parenting can be stressful and missteps are a natural part of child-rearing.

Recognize and celebrate the child's strengths, abilities, and capacity to learn and develop.

Provide consistent, age-appropriate guidelines and limits for child behavior.

Work toward a balance of meeting parental needs and child needs.

Delight in moments of connection with the child;

Recognize and regulate their own feelings and behaviors before they respond to the child.

Seek help, support or additional information on parenting when needed.
