**Eccentric Lives and Peculiar Notions** John Michell, 1999-04 Takes us into the bizarre and often humorous lives of such people as Lady Blount who was sure that the earth is flat Cyrus Teed who believed that the earth is a hollow shell with us in the inside Edward Hine who believed that the British are the lost Tribes of Israel and Baron de Guldenstubbe who was sure that statues wrote him letters British writer and housewife Nesta Webster devoted her life to exposing international conspiracies and Father O Callaghan devoted his to opposing interest on loans The extraordinary characters in this book were and in some cases still are wholehearted enthusiasts for the various causes and outrageous notions they adopted and John Michell describes their adventures with spirit and compassion The Lost Science of Measuring the Earth Robin Heath, John Michell, 2006 Long trackways stone rows circles standing stones and huge earthworks may be found all over Britain monuments dating back well over 4000 years The authors have made a remarkable breakthrough in understanding the system by which prehistoric monuments were designed and placed Invoking the Beyond: Paul D. Collins, Phillip D. Collins, 2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision

for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are merely masks for the same counterfeit divinity the Beyond Lost Continents & the Hollow Earth David Hatcher Childress, Richard S. Shaver, 1999 This book is Childress thorough examination of the early hollow earth stories of Richard Shaver and the fascination that fringe fantasy subjects such as lost continents UFOs and the hollow earth have had on people Shaver s rare 1948 book I Remember Lemuria is reprinted in its entirety and the book is packed with illustrations from Ray Palmer s Amazing Stories issues of the 1940s Childress discusses famous hollow earth books and delves deep into whatever reality may be behind the stories of tunnels underground *Conspiracy Theories in American History: N-Z* Peter Knight, 2003 The first comprehensive history of conspiracies and conspiracy theories in the United States A reference guide to conspiracy theory presents over 300 entries describing events and theories analyzing the historical intellectual and political context of each and offering evidence to support or refute each one *Encyclopedia of Cults, Sects, and New Religions* James R.
