## Doorbuster Injury Report Guide:

*Mass Gathering Medicine* William J. Brady, Mark R. Sochor, Paul E. Pepe, K. Sophia Dyer, John C. Maino II, 2024-04-11  
Mass medical deployments to large events such as music festivals or sporting events are increasing in number size and complexity. This textbook provides guidance and direction for rational, effective and practical medical management of mass gathering events for medical leaders. This is the first authoritative text on mass event medicine, filling a much-needed gap in a large and important area of the specialty. An international group of contributors introduce the specialty and cover topics such as general deployment, staffing, equipment and resources, moving on to more complex issues such as the business aspect of mass gathering medicine and the legal implications. There are also practical chapters on specific types of events and adverse events such as terrorism, severe weather and civil disobedience. An invaluable text for all healthcare professionals planning for and attending mass events, particularly EMS professionals, large event planners and administrators, and law enforcement and security personnel.

**30 Fires You Must Know** Billy Goldfeder, Frank Leeb, 2024-08-07  
*30 Fires You Must Know* offers a compelling examination of 30 pivotal fires that remain tactically relevant today. This resource provides a deep dive into modern fire history, offering valuable lessons for firefighters and first responders. By detailing these significant incidents, the book aims to honor the lives lost and ensure that their stories and the lessons learned continue to impact future operations. While there are thousands of fires that have changed the fire service, the 30 was selected from several hundred that have occurred in the past couple of decades that any firefighter operating today must know about. Each chapter includes vivid details from someone who was there or has direct knowledge of each of the fires, ensuring a clear understanding of the events. Additionally, each section begins with an overview to set the stage for what's to come and a lesson plan at the end designed to help you share the details with your firefighters. The book also features a QR code linking to [www.30Fires.com](http://www.30Fires.com), where you can access more information about each fire, including documents, reports, photos, audio, and videos. With a commitment to supporting the fire service community, all royalties from *30 Fires You Must Know* are donated equally to four key charities: The Firefighter Cancer Support Network, The First Responder Center of Excellence, an affiliate of the National Fallen Firefighters Foundation, The Deputy Chief Raymond M. Downey Scholarship Charity Fund, and The Tunnel to Towers Foundation.

**Reporting Accidents and Incidents at Work** Great Britain. Health and Safety Executive, 2013-10  
From 1 October 2013, RIDDOR 2013 comes into force, which introduces significant changes to the existing reporting requirements. The main changes are to simplify the reporting requirements in the following areas: the classification of major injuries to workers is being replaced with a shorter list of specified injuries; the previous list of 47 types of industrial disease is being replaced with eight categories of reportable work-related illness; fewer types of dangerous occurrence require reporting. This leaflet aims to help employers and others with reporting duties under RIDDOR to comply with RIDDOR and to understand reporting requirements.
