Regulating the Metaverse Ignas Kalpokas,Julija Kalpokienė,2023-01-26

The metaverse seems to be on everybody s lips and yet very few people can actually explain what it means or why it is important This book aims to fill the gap from an interdisciplinary perspective informed by law and media and communications studies Going beyond the optimism emanating from technology companies and venture capitalists the authors critically evaluate the antecedents and the building blocks of the metaverse the design and regulatory challenges that need to be solved and commercial opportunities that are yet to be fully realised While the metaverse is poised to open new possibilities and perspectives it will also be a dangerous place one ripe with threats ranging from disinformation to intellectual property theft to sexual harassment Hence the book offers a useful guide to the legal and political governance issues ahead while also contextualising them within the broader domain of governance and regulation of digital technologies

New Directions in Childhood Studies James M. Curtis,2024-01-04 New Directions in Childhood Studies Innocence Trauma and Agency in the Twenty first Century acknowledges that the conceptual frameworks for understanding the experience of childhood in the twentieth century are no longer adequate and offers important updates to the construct of

American childhood The chapters in this collection examine contemporary children's literature film and video games to explore the ways in which everyday realities like trauma disaster and death impact the experience of childhood in America today In many ways the essays show the narratives blur traditional lines between children's and adult content taking children's series as subjects while also guiding them through the processes of dealing with the particular challenges Collectively the essays develop a more contemporary construct of the American child and offer new insights into what that construction might mean for contemporary American society and culture [Conversing in the Metaverse](#) Jieun Kiaer,2024-07-25 How do metaverse technologies change how we communicate with each other This book explores how existing metaverse technologies affect our communication both verbal and non verbal as well as the ramifications of these effects

Fashion Business and Digital Transformation provides a practical and holistic overview of the

fashion industry and the key technologies impacting the fashion supply chain. It covers product design and development, production, sales and customer experiences in physical, online and virtual environments. The key technologies impacting the ecosystem are explored, including artificial intelligence, virtual reality, augmented reality, digital fashion design, NFTs, 3D textiles and blockchain. Strategic concepts such as retailtainment, phygital, gamification and e-commerce are analysed alongside the effect of these key strategies for both the retailer and the customer. Theoretical foundations are supported by extensive use of examples, interviews and case studies drawn from a wide range of global fashion disrupters and cutting edge brands. Engaging activities, exercises and technical step by step guides are incorporated throughout, which will both consolidate how technology is driving change in the industry but also equip the reader with the key skills and digital literacy capabilities required by future practitioners. Online resources include chapter by chapter PowerPoint slides, a test bank and links to further resources. This examination of the digital transformation of the fashion industry will be essential reading for advanced undergraduate and postgraduate students of Fashion Management, Fashion Business and Fashion Technology.
