**Post-Digital, Post-Internet Art and Education** Kevin Tavin, Gila Kolb, Juuso Tervo, 2021-06-28 This open access edited volume provides theoretical, practical and historical perspectives on art and education in a post-digital post-internet era. Recently, these terms have been attached to artworks, artists, exhibitions and educational practices that deal with the relationships between online and offline, digital and physical, and material and immaterial. By taking the current socio-technological conditions of the post-digital and the post-internet seriously, contributors challenge fixed narratives and field-specific ownership of these terms as well as explore their potential and possible shortcomings when discussing art and education. Chapters also recognize historical forebears of digital art and education while critically assessing art media and other realms of engagement. This book encourages readers to explore what kind of educational futures might a post-digital post-internet era engender.
