Meme Wars Kalle Lasn, Adbusters, 2013-01-15 From the editor and magazine that started and named the Occupy Wall Street movement **Meme Wars The Creative Destruction of Neoclassical Economics** is an articulation of what could be the next steps in rethinking and remaking our world that challenges and debunks many of the assumptions of neoclassical economics and brings to light a more ecological model. **Meme Wars** aims to accelerate the shift into this new paradigm that takes into account psychonomics, bionomics and other aspects of our physical and mental environment that are often left out in discussions of economics. Like **Adbusters** the book will be image heavy and full color throughout. Lasn calls it a textbook for the future that provides the building blocks in texts and visuals for a new way of looking at and changing our world. Through an examination of alternative economies Lasn hopes to spur students to become barefoot economists and to see that a humanization of economics is possible. **Meme Wars** will include contributions from Nobel Prize winner Joseph Stiglitz, Paul Samuelson, George Akerlof, Lourdes Bener, a Julie Matthaei, Manfred Max Neef, David Orrell, Paul Gilding, Mathis Wackernagel and the father of ecological economics Herman Daly among others. Based on ideas that were presented in a special issue of **Adbusters** entitled **Thought Control in Economics Beyond the Growth Paradigm**. **An Activist Toolkit**. **Meme Wars** will help move forward the Occupy Wall Street movement

The Meme as the Message Joanna Nowotny, Julian Reidy, 2025-10-31 This book sheds light on the phenomenon of memes covering everything from pandemic humour to far right propaganda from feminist memes to algorithmic censorship. Memes are far more than light entertainment; they are complex cultural artefacts that play a role in politics, in art and in platform economics. Taking a cultural studies perspective, the authors analyse individual memes in entertaining case studies, systematising their findings in order to redefine this digital form of communication. Chapters connect memes with other digital phenomena such as trolling and combine extensive close readings of exemplary individual memes with regards to form and aesthetics with an acute awareness of power dynamics and other context phenomena surrounding memes. The book develops an innovative theoretical approach that presents the term **memesis** to capture the very specific quality of meme production and reception as a form of collective creative rewriting of a template in accordance with algorithmic logic. Offering an important contribution not only to the still young field of meme studies but also to the general negotiations of questions around digital literacy, this book will interest not only scholars and students of digital media, visual communication, cultural studies and media and politics but anyone with a keen interest in digital culture and how it shapes our lives
