**Fashion Trends and Forecasting** Eunsuk Hur, Caroline Hemingray, Stephen Westland, 2025-03-17 Fashion Trends and Forecasting explores how designers merchandisers buyers marketers and strategists use fashion trend forecasting to predict upcoming trends and understand past or current ones. It explains the importance of trend forecasting for businesses and how technology such as artificial intelligence can help to advance it for the future. Addressing both macro and micro trends including fashion styles, textiles and colour trends as well as the impact of technology such as AI and the metaverse, the book offers guidance on how fashion students can address fast changing consumer needs and demands and identify wider shifts in the cultural, environmental, political and technological worlds. Case studies from globally recognised organisations feature in every chapter, highlighting and contextualising theory for students. Discussion questions, further reading and exercises help facilitate class discussion and deeper understanding. Designed to equip the reader with Fashion Forecasting tools, methods and principles in an accessible and clear way, this text is recommended and core reading for students studying fashion forecasting, fashion buying and fashion marketing. Supplementary online resources can be found at [www.routledge.com/9781032541860](http://www.routledge.com/9781032541860) and include a short instructor's manual of points to be used for seminar discussions and chapter by chapter PowerPoint slides for instructors.

[Routledge Handbook of Trends and Issues in Global Tourism Supply and Demand](#)

Alastair M. Morrison, Dimitrios Buhalis, 2023-09-25 This Handbook provides a comprehensive overview of trends and issues in the global supply and demand of tourism. With contributions from 70 authors, this Handbook showcases a diverse range of perspectives with insights from around the globe. It reviews the interactions among trends and issues and it emphasises the importance of tracking and interpreting these on a global scale. The book is organized into three parts: Part I focusing on supply side trends including transport, attractions, culture, heritage, tourism, technology, policies and destination management; Part II critically reviews the external factor trends including the impact of terrorism, multi-crisis destinations, Generation Z's important contributions to the sector, the regulation of sharing economy platforms and nature tourism in the future; Part III focuses on market-led trends such as bleisure, glamping, VFR travel, transformational tourism and new trends in wellness tourism following the post-COVID era. The book also provides predictions for the upcoming decades. This Handbook will be a vital tool for researchers, students and practitioners in the tourism and hospitality sector to further develop their knowledge and expertise in the field. It examines business and policy implications, offering guidance for developing sustainable competitive advantage.

**The Handbook of Fashion Law**, 2025-01-23 Over the past few years, fashion law has emerged as a vibrant field of inquiry. The legal and policy issues affecting the fashion sector have been investigated with increasing intensity while a growing number of private practice lawyers and in-house counsel regard themselves as practising fashion law. But what is fashion law? And what are the specific legal challenges facing the fashion sector as well as related solutions? The Handbook of Fashion Law seeks to answer these questions by bringing together multiple voices, approaches and

jurisdictions. Its contributions are organized into four thematic areas. Part I considers the legal infrastructure of the fashion and luxury industries addressing issues related to intellectual property, IP, as well as the demands of the circular economy. Protection of cultural heritage and freedom of expression and information. Part II maps the IP dimensions of fashion by reviewing the application of design rights, copyright, trade marks, geographical indications, plant variety rights and trade secrets. Part III analyses specific contractual issues arising in the fashion sector. It examines the application of principles and rules found in regulatory frameworks including those governing advertising, competition, consumer and tax laws. Finally, Part IV dissects and evaluates the role of new and emerging technologies in the fashion sector from a legal perspective. It considers concepts such as e-commerce, 3D printing, counterfeiting, artificial intelligence, non-fungible tokens, NFTs, the metaverse, gaming and wearable technology. The Handbook of Fashion Law offers readers a multidisciplinary and multijurisdictional understanding of legal challenges facing the fashion sector. Bringing together a diverse range of experts, its contributions offer readers an in-depth critical and strategic understanding of the fashion industry's legal intricacies.

*Contemporary Issues in Digital Communication, Media, and Culture* Karpouzis, Kostas, Skarpetos, Ioannis, 2025-09-24. In an age where technology shapes human interaction, contemporary issues in digital communication, media, and culture become complex. From the rise of social media algorithms influencing public opinion to concerns about data privacy, misinformation, and digital surveillance, today's digital landscape presents both new opportunities and critical challenges. These issues affect how individuals connect, how cultures evolve, and how societies function globally. Understanding and analyzing these dynamics may help navigate the ethical, social, and political implications of life in a digital world. *Contemporary Issues in Digital Communication, Media, and Culture* explores the intersection of computer science and social sciences, examining how computational methods analyze, interpret, and shape the disciplines of communication, media, and culture. It examines the theoretical foundations, methodologies, and applications of computational techniques in understanding and influencing human communication and cultural phenomena. This book covers topics such as social media, artificial intelligence, and information technology, and is a useful resource for media and communications professionals, engineers, sociologists, academicians, researchers, and scientists.
