Shaping Sound in the Studio and Beyond Gary Gottlieb, Mike Testa, 2026-01-29 *Shaping Sound in the Studio and Beyond* Audio Aesthetics and Technology closes the divide between technology and aesthetics and bridges the gap between analog and digital audio practices equipping students and emerging engineers with the real world knowledge and flexible learning pathways needed to thrive in modern audio production environments. In this updated second edition readers will gain a practical understanding of sound recording, mixing and signal processing techniques through clear explanations, industry case studies and examples aligned with current studio workflows. Offering a comprehensive and accessible approach with chapters covering topics such as speakers and amps, microphones, signal processing, FX and consoles, this book is designed to support both foundational learning and advanced exploration, making it equally effective as a course text, self-study tool or long-term desk reference. *Shaping Sound in the Studio and Beyond* will be essential reading for students of audio engineering, audio production and music technology courses. It will also be of interest to aspiring studio recording professionals, home recordists and practicing audio engineers and musicians who are seeking a flexible, effective guide to the principles and evolving practices of modern sound production.

New Forms of Civic Resistance and Activism Tine Munk, Elliot Doornbos, Ian Mahoney, 2025-12-16 *New Forms of Civic Resistance and Activism* This interdisciplinary collection examines how contemporary movements are reshaping political, social and environmental landscapes through both online and offline means, including creative expression and grassroots mobilisation. This book analyses non-violent activism, political resistance, mobilisation, responses to hate and environmental activism. It brings together a wide range of academic perspectives with contributions from scholars and practitioners across the social sciences and humanities, political science, the natural sciences and environmental studies. By examining the synergy between online and offline actions, it highlights how these actions are interconnected with online platforms and virtual spaces, and in doing so, addresses the urgent need for compelling and legitimate civic resistance strategies in the modern world. It explores the intersection of digital platforms and real world action, providing fresh insights into how activism is increasingly transcending geographical, technological and conceptual boundaries. *New Forms of Civic Resistance and Activism* will appeal to scholars and students of criminology, social and political science, environmental studies, media and communication studies, cybercrime and cyber security. It will also interest activists, policymakers, practitioners and general readers who are curious about contemporary social movements. This book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non-Commercial No Derivatives CC BY NC ND 4.0 license.
