Cancer: Improving Your Odds John G. Herron, 2019-12-16 Are you looking for actionable things that you can do to help your cancer treatment or possibly prevent cancer in the first place Something with scientific evidence that it works Something that you won't be embarrassed to discuss with your family doctor or oncologist Something that can improve your immune system and general health That is exactly what you will find in this book Read on for Actionable methods for naturally treating and preventing cancer the scientific way not the internet blogger way Simple things that you can add to your medical treatment to Improve Your Odds of successfully fighting cancer 100% backed by science that you or your doctor can easily verify Easy to read and understand but formatted so that you can share the science with your doctor Improve your immune system and general health Evidence that some of the recommendations may significantly improve immunotherapy outcomes as well as benefit chemotherapy and radiotherapy treatments New research information that has the potential to save many lives My hope is you'll use this information to improve your medical treatment not replace it Even though some of the natural treatments have been scientifically shown to be very effective on their own they are even more effective when used in conjunction with modern medicine This is called adjuvant therapy You should strive to Improve Your Odds of beating cancer not thumb your nose at modern medicine You do not need a scientific or medical background to understand this narrative but its claims are evidenced with scientific abstracts that your doctor will appreciate abstracts that you can skip if you wish to cut your reading time in half You will find that all recommendations have solid evidence behind them this isn't just another book where someone is simply making it all up and telling you what you want to hear You should read this book with a highlighter and pencil at your side This book has been extensively researched and some of the information found here you will probably find in no other book or medical website There is a special emphasis on how you can improve your immune system to better fight almost any cancer even before you know you have it You aren't trying to fire your doctor you just want to help Improve Your Odds This book will help you do that Your oncologist will want to know all of the supplements you are taking and why This

book includes the scientific abstracts and the information they need to find the full research studies This will explain the why so you don't have to They may also want to geek out on all of this science as they rarely get exposed to research on natural cancer treatments Finally this book enables you to take some control over your cancer treatment or genetic predisposition In fact most of the recommendations in this book are great even if you are healthy as they can help prevent cancer and improve your immune system too Whether you may have breast cancer skin cancer lung cancer etc improving the immune system and your body's ability to fight cancer is always beneficial

The Science and Technology of Growing Young, Updated Edition Sergey Young, 2024-09-24 Wall Street Journal USA Today and Publishers Weekly bestseller 2021 Nautilus Book Award Silver Medal Winner Aging Consciously Category The prospect of living to 200 years old isn't science fiction anymore A leader in the emerging field of longevity offers his perspective on what cutting edge breakthroughs are on the horizon as well as the practical steps we can take now to live healthily to 100 and beyond In The Science and Technology of Growing Young industry investor and insider Sergey Young demystifies the longevity landscape cutting through the hype and showing readers what they can do now to live better for longer and offering a look into the exciting possibilities that await us By viewing aging as a condition that can be cured we can dramatically revolutionize the field of longevity and make it accessible for everyone Join Sergey as he gathers insights from world leading health entrepreneurs scientists doctors and inventors providing a comprehensive look into the future of longevity in two horizons The Near Horizon of Longevity identifies the technological developments that will allow us to live to 150 some of which are already in use from AI based diagnostics to gene editing and organ regeneration The Far Horizon of Longevity offers a tour of the future of age reversal and the exciting technologies that will allow us to live healthily to 200 from Internet of Bodies to digital avatars to AI brain integration In a bonus chapter Sergey also showcases 10 longevity choices that we already know and can easily implement to live to 100 distilling the science behind diet exercise sleep mental health and our environments into attainable habits and lifestyle hacks that anyone can adopt to vastly improve their lives and workplaces Combining practical advice with an incredible overview of the brave new world to come The Science and Technology of Growing Young redefines what it means to be human and to grow young
