Helplessly tied up and leaned against the alley wall, eight-year-old Jason watches as his older brother is systematically beaten to death and in anguish he cries out for mercy. When suddenly something strange and unexplainable happens and young Jason is changed forever and as the alien watches from the shadows, he fears what they created today will one day seek his revenge on them all. *Jason's Destiny* is a story about a journey. The journey of a little boy who at the age of five is forced to flee the only home he ever knew to the streets of Rim Town. There he and Cole, his older brother, would start their new lives. But unknown by them, they were marked boys. Little did they suspect that everything they thought they knew was a lie, carefully orchestrated by the most powerful beings in the universe, the Ancients. They were so powerful they could destroy planets and stars with the power of their minds. Nothing and no one could stand before them, but something was stirring. Something even they feared and Jason was their only hope. Jason was their creation. It had taken them over three thousand years of trial and error. The genes of the greatest and most powerful Ancients flowed in Jason's veins, but also something else, simply referred to as the X factor. Jason is compelled to seek them out in order to learn the secret of their power and after many failed encounters, he finally finds the one and now the real journey begins. A journey that will take Jason to the ends of the universe across dimensions and through time itself. Along the way he would find friendship and love, but most importantly he would find himself and why that would mean so much to so many / *Jason the Path of Destiny!* / Benjamin Walthall, 2010-10 / **Orphan?
