Otto Dix, *Life and Work* Fritz Löffler, 1982 Music and the Modern Condition: Investigating the Boundaries Ljubica Ilic, 2016-04-29 Two crucial moments in the formation and disintegration of musical modernity and the musical canon occurred at the turn of the seventeenth and the first half of the twentieth century Dr Ljubica Ilic provides a fresh and close look at these moments exploring the ways musical compositions shift to and away from ideological structures identified with modernity The focus is on European art music whose grand narrative defined by tonality and teleological development begins in the seventeenth century and ends with twentieth century modernisms This particular musical language game coincides with historical changes in the phenomenological understanding of space and selfhood A key concept of the book concerns musical compositions that remain without proper conclusions if the wholesome musical work is a manifestation of wholesome subjectivity the pieces Ilic explores deny it reflecting conflict of the individual with previous beliefs with contexts and even within the self as the basic modern condition The musical work is in this case still bounded and well defined but fractured by the incapability or refusal to satisfactorily conclude the implicit cut forced upon it changes the expected musical flow or speaking in spatial terms it influences the musical form By using the metaphor of space Ilic explores how the existence of a separate self as a primary feature of Western modernity becomes negotiated through awareness of the subject's own independence and individuality innerness as something entirely separate from its surroundings and the collective space of social interaction Seeing musical storytelling as a metaphoric representation of selfhood and modernity as a historical continuum Ilic examines the boundaries and relationships between the musical work the subject and modern European history **The British Library General Catalogue of Printed Books 1976 to 1982** British Library, 1983 **La Création collective** Marie-José Baudinet, René Passeron, 1981 **National Union Catalog**, 1979 Includes entries for maps and atlases *Quand l'art dit la résurrection* Jérôme Cottin, 2017-09-27 Sept oeuvres d'art c l bres du VIe au XXe si cle Ravenne Grunewald Cranach Rembrandt Van Gogh Burnand Dix ainsi qu'une cr ation originale du XXIe si cle Val rie Colombel autour de la r surrection sont analys es d'un point de vue historique et esth tique mais aussi biblique et th ologique Comment ces oeuvres peuvent elles conjuguer des interpr tations fid les des textes bibliques avec des cr ations visuelles qui souvent s'en cartent Parmi ces huit r alisations artistiques cinq ont t faites par des artistes de confession ou de culture protestantes ce qui jette un d menti sur le pr tendu d sint r t du protestantisme pour les arts visuels Au final un passionnant parcours qui fait se croiser art et th ologie autour de l v nement fondateur du christianisme Otto Dix Otto Dix, *Livres hebdo*, 2009 Cahiers du Musée national d'art moderne Musée national d'art moderne (France), 2018
