2. **Measles**: When people get vaccinated, they protect themselves from disease and also contribute to herd immunity, reducing the spread of infectious diseases. This benefits those who cannot get vaccinated due to medical reasons and helps prevent outbreaks.
3. **Research and Development (R&D)**: Investments in R&D often lead to technological advancements that benefit society at large. For instance, the development of the internet has revolutionized communication, education, and business globally, far exceeding the benefits to the initial developers.
