Growth has now completely stalled in those western democracies the UK included where high government spending and high taxes have steadily burgeoned decade after decade. Free market economies now threaten to leave us behind in terms of

wealth opportunity and standards of living At the end of Rishi Sunak s 2024 government expenditure was at 45 per cent of GDP and taxes were 36 per cent and rising yet still nowhere near sufficient to cover public expenditure The government s net annual borrowing is now a completely unsustainable 4.4 per cent of GDP with our overall national debt growing rapidly and alarmingly In this arresting and powerful manifesto for economic change Jon Moynihan analyses the UK s decades long stagnant economy and looks at what can be done to resuscitate it Combining rigorous research with unparalleled business experience he explores the key dynamics affecting economic growth ranging from government borrowing expenditure tax and regulation to the way national resources are deployed on non productive and futile growth stifling endeavours Ultimately Moynihan shows that unless we act now to reverse the decline by radically restructuring our economy to stimulate economic growth the UK risks stagnation financial collapse and a long term disintegration in our standard of living Ignore his warning at your peril
