Advances in Ergonomics in Design
Francisco Rebelo, 2021-06-28
This book provides readers with a timely snapshot of ergonomics research and methods applied to the design, development and evaluation of products, systems and services. It gathers theoretical contributions, case studies and reports on technical interventions focusing on a better understanding of human machine interaction and user experience for improving product design. The book covers a wide range of established and emerging topics in user centered design, relating to design for special populations, design education, workplace assessment and design anthropometry, ergonomics of buildings and urban design, sustainable design as well as visual ergonomics and interdisciplinary research and practices, among others. Based on the AHFE 2021 International Conference on Ergonomics in Design held virtually on 25-29 July 2021 from USA, the book offers a thought provoking guide for both researchers and practitioners in human centered design and related fields.

SMART HOME ON A BUDGET Zoenaedy Soenjoto, 2025-10-18
Imagine waking up to your favorite music with lights gradually brightening to simulate sunrise, your coffee maker starting automatically and your home already at the perfect temperature. This isn't science fiction or exclusive to luxury homes; it's achievable today with budget friendly smart devices. The smart home revolution has made incredible strides in recent years. What once cost thousands of dollars and required professional installation can now be set up for a fraction of the price by anyone willing to spend a weekend learning the basics.
