Turban,2017-10-12 This new Edition of Electronic Commerce is a complete update of the leading graduate level advanced  
undergraduate level textbook on the subject Electronic commerce EC describes the manner in which transactions take place  
over electronic networks mostly the Internet It is the process of electronically buying and selling goods services and  
information Certain EC applications such as buying and selling stocks and airline tickets online are reaching maturity some  
even exceeding non Internet trades However EC is not just about buying and selling it also is about electronically  
communicating collaborating and discovering information It is about e learning e government social networks and much  
more EC is having an impact on a significant portion of the world affecting businesses professions trade and of course people  
The most important developments in EC since 2014 are the continuous phenomenal growth of social networks especially  
Facebook LinkedIn and Instagram and the trend toward conducting EC with mobile devices Other major developments are  
the expansion of EC globally especially in China where you can find the world's largest EC company Much attention is lately  
being given to smart commerce and the use of AI based analytics and big data to enhance the field Finally some emerging EC  
business models are changing industries e.g the shared economy models of Uber and Airbnb The 2018 9th edition brings  
forth the latest trends in e commerce including smart commerce social commerce social collaboration shared economy
