Leadership 2.0 in processes of a sustainable change Prof. Dr. Michael Kurwan, 2025-06-30

Document from the year 2025 in the subject Leadership and Human Resources Leadership language English abstract In order to successfully implement sustainable changes in a company in the context of change processes strong leadership is required at the top of a company which should have a great deal of empathy and a sure instinct in order to position the company in the market in the long term and profitably In order to successfully shape these sustainable changes it will not be the famous power of the leader of the past but will only work with the involvement of employees in the new world of work in the knowledge age which is characterized by digitalization and artificial intelligence This new form of leadership is also referred to as Leadership 2.0 in which it is important to retain top performers and in particular key personnel in the company in the long term which is a very challenging leadership task in HR management In change processes a fundamental distinction must be made between incremental change management and radical change management While incremental change takes place continuously and is integrated into everyday working life radical change represents a strategic realignment of the company which is largely associated with staff reductions and is intended to change the corporate culture This is particularly true in the case of restructuring where cost cutting programs play a decisive role in ensuring the long term survival of the company Employees are more willing to go along with incremental change also known as continuous improvement than radical change as they could also be affected by staff cuts This fuels employees fears and therefore often leads to high staff turnover

2024 no 8 **Empire of AI** Karen Hao,2025-05-20 A New York Times Notable Book Finalist for the National Book Critics Circle Award An Instant New York Times Bestseller Named a Best Book of the Year by Smithsonian and Scientific American A bestselling page turner that has made waves not just in Silicon Valley but around the world With Empire of AI Hao is fundamentally shaping many people s perceptions and understanding of the company at the center of the AI revolution TIME Magazine TIME100 AI 2025 Excellent and deeply reported Tim Wu The New York Times Startling and intensely researched an essential account of how OpenAI and ChatGPT came to be and the catastrophic places they will likely take us Vulture From a brilliant longtime AI insider with intimate access to the world of Sam Altman s OpenAI from the beginning an eye opening account of arguably the most fateful tech arms race in history reshaping the planet in real time from the cockpit of the company that is driving the frenzy When AI expert and investigative journalist Karen Hao first began covering OpenAI in 2019 she thought they were the good guys Founded as a nonprofit with safety enshrined as its core mission the organization was meant its leader Sam Altman told us to act as a check against more purely mercantile and potentially dangerous forces What could go wrong Over time Hao began to wrestle ever more deeply with that question Increasingly she realized that the core truth of this massively disruptive sector is that its vision of success requires an almost unprecedented amount of resources the compute power of high end chips and the processing capacity to create massive large language models the sheer volume of data that needs to be amassed at scale the humans cleaning up that data for sweatshop wages throughout the Global South and a truly alarming spike in the usage of energy and water underlying it all The truth is that we have entered a new and ominous age of empire only a small handful of globally scaled companies can even enter the field of play At the head of the pack with its ChatGPT breakthrough how would OpenAI resist such temptations Spoiler alert it didn t Armed with Microsoft s billions OpenAI is setting a breakneck pace chased by a small group of the most valuable companies in human history toward what end not even they can define All this time Hao has maintained her deep sourcing within the company and the industry and so she was in intimate contact with the story that shocked the entire tech industry Altman s sudden firing and triumphant return The behind the scenes story of what happened told here in full for the first time is revelatory of who the people controlling this technology really are But this isn t just the story of a single company however fascinating it is The g forces pressing down on the people of OpenAI are deforming the judgment of everyone else too as such forces do Naked power finds the ideology to cloak itself no one thinks they re the bad guy But in the meantime as Hao shows

through intrepid reporting on the ground around the world the enormous wheels of extraction grind on By drawing on the viewpoints of Silicon Valley engineers Kenyan data laborers and Chilean water activists Hao presents the fullest picture of AI and its impact we ve seen to date alongside a trenchant analysis of where things are headed An astonishing eyewitness view from both up in the command capsule of the new economy and down where the real suffering happens Empire of AI pierces the veil of the industry defining our era **1242**,2024-06-14 1242 AI AI NIVIDA 2330 8 3 000 100 10 CEO 1242 AI AI AI 10 5 **1251**,2024-08-16 1251 AI 1251 MSCI CoWoS CPI **1269**,2024-12-20 1269 2025 2024 AI 11 3 98 11 11 40 55 1269 ASIC FOMO TINA AI ASIC 2 0 23900 24100 **1216**,2023-12-15 1216 2024 2023 2024 AI 20% 1216 KY AI AI PC AI

D'une chambre à soi à l'invention de soi

Claire Delannoy, 2026-01-14. Souvenez-vous de votre dernier bain de mer, vous plongez sous la vague dans un geste fluide, plus de pesanteur mais la joie d'un corps libre. Vous n'êtes ni contenue, ni entravée, ni homme, ni femme. Peut-être en devenir poisson, c'est cette sensation que je définis comme celle de l'espace du neutre, celle de l'indétermination salvatrice qui ouvre les imaginaires et permet d'affronter la vie en commun. Face au constat de l'inégalité structurelle entre les sexes et de son individualisation, les femmes, encore plus que les hommes, ont besoin d'un espace de liberté pour juger, assigner et peur. N'ont plus cours. Cet espace de soi il nous faut d'urgence le créer pour envisager un mode de pensée plus ouvert, critique et vagabond. Un espace pour s'inventer. Longtemps directrice littéraire romancière, dernier ouvrage paru : *L'affaire Charlotte Anslo*. Claire Delannoy observe depuis plus d'un demi siècle l'évolution de la condition des femmes et des mentalités de son regard critique et décalé.
