**College Guide for Performing Arts Majors** Carole J. Everett,Peterson's,2009-09-14 Describes graduate programs in art dance music and theater and lists undergraduate programs [Learning Music Theory with Logic, Max, and Finale](#) Geoffrey Kidde,2020-02-20 Learning Music Theory with Logic Max and Finale is a groundbreaking resource that bridges the gap between music theory teaching and the world of music software programs Focusing on three key programs the Digital Audio Workstation DAW Logic the Audio Programming Language APL Max and the music printing program Finale

this book shows how they can be used together to learn music theory. It provides an introduction to core music theory concepts and shows how to develop programming skills alongside music theory skills. Software tools form an essential part of the modern musical environment laptop musicians today can harness incredibly powerful tools to create, record and manipulate sounds. Yet these programs on their own don't provide musicians with an understanding of music notation and structures while traditional music theory teaching doesn't fully engage with technological capabilities. With clear and practical applications this book demonstrates how to use DAWs, APLs and music printing programs to create interactive resources for learning the mechanics behind how music works. Offering an innovative approach to the learning and teaching of music theory in the context of diverse musical genres this volume provides game changing ideas for educators, practicing musicians and students of music. The author's website at <http://www.geoffreykidde.com> includes downloadable apps that support this book.

**Voice Secrets** Matthew Hoch, Linda Lister, 2016-05-31 In *Voice Secrets* 100 Performance Strategies for the Advanced Singer Matthew Hoch and Linda Lister create order out of the chaotic world of singing. They examine all aspects of singing including non-technical matters such as auditioning, performance anxiety, score preparation, practice, performance tips, business etiquette and many other important topics for the advanced singer. *Voice Secrets* provides singers with a quick and efficient path to significant improvement both technically and musically. It is the perfect resource for advanced students of singing, professional performers, music educators and avid amateur musicians. The *Music Secrets* for the Advanced Musician series is designed for instrumentalists, singers, conductors, composers and other instructors and professionals seeking a quick set of pointers to improve their work as performers and producers of music. Easy to use and intended for the advanced musician, contributions to *Music Secrets* fill a niche for those who have moved beyond what beginners and intermediate practitioners need.

**Sight Singing Complete** Bruce Benward, Maureen A Carr, 2014-03-19 Students of music are faced with the challenge of developing their aural skills to the point at which they can see music on the page with thoughtful, trained eyes and hear it with their mind's ear. *Sight Singing Complete* leads students to this point by beginning with the familiar and moving gently toward the unfamiliar until they are transforming symbol into sound and improvising in all idioms. The 8th edition of *Sight Singing Complete* preserves the multi-faced pedagogical approach and the commitment to historical repertoire from the seventh edition. New to this edition is an integrated approach to rhythm and performance. This edition is unusual in that we not only expect students to master each skill by itself, we also expect them to integrate all three skills in carefully designed sequences of Play, Sing exercises adapted from 18th-21st century instrumental and vocal repertoire.
