The conference was aimed at bringing together researchers, scholars, academicians, and industry professionals to discuss the latest advancements and innovations in the field of computer technologies. The conference began with an opening ceremony where the chief guests and dignitaries were welcomed by the organizers. The keynote address was delivered by a renowned expert in the field of computer technologies who spoke about the importance of innovation in driving progress and growth in the industry. This was followed by technical sessions where researchers and professionals presented their papers on various topics related to computer technologies. The technical sessions covered a wide range of topics including but not limited to artificial intelligence, machine learning, data science, computer networks, security and privacy, computer graphics and visualization, software engineering, and emerging technologies. The presentations were well received by the audience who actively participated in the discussions and provided valuable feedback to the presenters. Apart from the technical sessions, the conference also featured a panel discussion on the topic of The Future of Computer Technologies. The panel comprised

experts from academia and industry who shared their insights and perspectives on the future direction of the field. The discussion covered various topics such as the impact of emerging technologies like blockchain and quantum computing, the role of artificial intelligence and machine learning in shaping the future of work and the challenges and opportunities in ensuring the ethical use of technology. Overall the conference provided a platform for researchers and professionals to share their ideas, insights and experiences and to collaborate and network with their peers. The organizers thanked all the participants and sponsors for their support in making the conference a success and announced plans to host a follow up event next year.
