Theory and Practice of Rational Investing Harry M. Markowitz,2016-05-27 The Nobel Prize winning Father of Modern
Portfolio Theory returns with new insights on his classic work to help you build a lasting portfolio today Contemporary
investing as we know it would not exist without these two words Portfolio selection Though it may not seem revolutionary
today the concept of examining and purchasing many diverse stocks creating a portfolio changed the face of finance when
Harry M Markowitz devised the idea in 1952 In the past six decades Markowitz has risen to international acclaim as the
father of Modern Portfolio Theory MPT with his evaluation of the impact of asset risk diversification and correlation in the
risk return tradeoff In defending the idea that portfolio risk was essential to strategic asset growth he showed the world how
to invest for the long run in the face of any economy In Risk Return Analysis this groundbreaking four book series the
legendary economist and Nobel Laureate returns to revisit his masterpiece theory discuss its developments and prove its
vitality in the ever changing global economy Volume 2 picks up where the first volume left off with Markowitz s personal
reflections and current strategies In this volume Markowitz focuses on the relationship between single period choices now
and longer run goals He discusses dynamic systems and models the asset allocation glide path inter generational investment
needs and financial decision support systems Written with both the academic and the practitioner in mind this richly
illustrated volume provides investors economists and financial advisors with a refined look at MPT highlighting the rational
decision making and probability beliefs that are essential to creating and maintaining a successful portfolio today
