Al-Sharafi,Mohammed N. Al-Kabi,Khaled Shaalan,2021-12-02 This book sheds light on the emerging research trends in intelligent systems and their applications It mainly focuses on four different themes including Artificial Intelligence and Soft Computing Information Security and Networking Medical Informatics and Advances in Information Systems Each chapter contributes to the aforementioned themes by discussing the recent design developments and modifications of intelligent

systems and their applications **Smart Systems and Wireless Communication** Rituparna Chaki,Agostino Cortesi,Suparna DasGupta,Soumyabrata Saha,2025-05-19 The volume is a collection of high quality research papers presented at International Conference on Smart Systems and Wireless Communication SSWC 2024 organized Department of Information Technology JIS College of Engineering Kalyani West Bengal India during 29 30 November 2024 This book focuses smart cities smart farming smart healthcare wireless networks communication internet of things cyber physical systems human computer interaction big data and data analytics high performance computing requirements engineering analysis and verification techniques security systems distributed systems biometrics bioinformatics robotic process automation and machine learning *Twittering the #ArabSpring?* Johannes Sieben,2012-12-12 Master s Thesis from the year 2012 in the subject Communications Multimedia Internet New Technologies grade 72% Distinction City University London School of Informatics and School of Arts and Social Sciences course MSc Information Communication and Society language English abstract This dissertation examines tweet content from key periods of the uprisings in Egypt and Syria of 2011 and 2012 generally known as the Arab Spring Some authors and the main stream media have suggested that these uprisings were significantly influenced and organised by Twitter and subsequently referred to them as Twitter Revolution Other authors have strongly opposed this idea and attributed it to self deception in the light of marvellous inventions of the Western World They have suggested Twitter was predominantly used as an information sharing network In an effort to contribute data to this debate this dissertation analyses tweet content from three different observation periods two tweet datasets were collected from other academics and third one was crawled from the Twitter API this process made use of the crawling tool cURL and the database software mongoDB The combined tweet dataset contained about 1 9 million tweets out of which a sample of 1945 tweets was drawn This sample was then evaluated in a quantitative content analysis according to a coding manual These codes were entered into the statistical analysis software SPSS in which they were also processed This study found that in the context of these uprisings Twitter was indeed used more as an information sharing tool and only to a relatively small fraction for organisational purposes This result does not negate the possibility of a mobilising effect of that small fraction A further central result is that almost every second tweet contained a hyperlink and that most of these lead to visual stimuli **The Governance of Artificial Intelligence in the "Autonomous City"** Federico Cugurullo,Tan Yigitcanlar,Xiaoling Zhang,Vincent J. Del Casino Jr.,Natalie Marie Gulsrud,Sarah Barns,2023-10-18 Artificial intelligence AI is now mediating and in some cases seen to be controlling key urban services and infrastructures thus becoming a prominent feature of the contemporary city As portrayed in recent studies the autonomous city can be understood as a city where urban artificial intelligences perform tasks and take on roles which have traditionally been the domain of humans At stake in these debates are questions related to the meaning and ongoing role of intelligence for both humans and machines While autonomous cars transport people service robots run shops drones deliver goods and city brains govern entire cities humans

are redefining the meaning of what smart means in the city and what role the human being may play in future urban spaces With humans shifted to new sectors of the economy or pushed aside by algorithms and robotic agents creating new ways of seeing and governing the city we raise the question as to whether or not cities are becoming more autonomous from human experience in the sense that their operation does not rely as much on human inputs anymore   *A Comprehensive Approach on Sentiment Analysis & Prediction* Manu Banga,2023-01-23 Document in the subject Computer Sciences Artificial Intelligence language English abstract In today scenario there is abrupt usage of microblogging sites such as Twitter for sharing of feelings and emotions towards any current hot topic any product services or any event Such opinionated data needs to be leveraged effectively to get valuable insight from that data This research work focused on designing a comprehensive feature based Twitter Sentiment Analysis TSA framework using the supervised machine learning approach with integrated sophisticated negation handling approach and knowledge based Tweet Normalization System TNS We generated three real time twitter datasets using search operators such as Demonetization Lockdown and 9pm9minutes and also used one publically available benchmark dataset SemEval 2013 to assess the viability of our comprehensive feature based twitter sentiment analysis system on tweets We leveraged varieties of features such as lexicon based features pos based morphological ngrams negation and cluster based features to ascertain which classifier works well with which feature group We employed three state of the art classifiers including Support Vector Machine SVM Decision Tree Classifier DTC and Naive Bayesian NB for our twitter sentiment analysis framework We observed SVM to be the best performing classifier across all the twitter datasets except 9pm9minutes DTC turned out to be the best for this dataset Moreover our SVM model trained on the SemEval 2013 training dataset outperformed the winning team NRC Canada of SemEval 2013 task 2 in terms of macro averaged F1 score averaged on positive and negative classes only Though state of the art twitter sentiment analysis systems reported significant performance it is still challenging to deal with some critical aspects such as negation and tweet normalization   The imperial and Asiatic quarterly review ,1892   Computerworld ,2009   Social Media Analytics: Effective Tools for Building, Interpreting, and Using Metrics Marshall Sponder,2011-09-02 Align Strategy With Metrics Using Social Monitoring Best Practices Two or three years from now every public relations firm that wants to be taken seriously in the C suite and or a lead marketing role will have someone like Marshall in its senior leadership ranks a chief analytics officer responsible for ensuring that account leaders think more deeply about analytics and that thfirm works with the best available outside suppliers to integrate analytics appropriately Paul Holmes The Holmes Report Marshall has provided much needed discipline to our newest marketing frontier a territory full of outlaws medicine men dot com tumbleweeds and snake oil Ryan Rasmussen VP Research Z calo Group Marshall Sponder stands apart from the crowd with this work His case study approach borne of real world experience provides the expert and the amateur alike with bibliography tools links and examples to shortcut the path to bedrock successes This is a reference work for anyone who wants to explore the potential of
