*Artists and Markets in Music* Cameron M. Weber, Ying Zhen, J.J. Arias, 2023-08-30 This monograph is an innovative examination of the political economy of music. It integrates original economic theories and empirical research to shed light on the economic and social forces shaping music and society today. Interactive relationships such as the importance of entrepreneurship, serendipity, and authenticity will be explored in artist subjective determinations of success. In particular, this book deeply explores the mental health of musicians and creative destruction during the COVID era, copyrights in music markets, and an evaluation of the importance of entrepreneurship and brand marketing in the life of musical artists. The monograph contributes empirical research to underexplored areas in the cultural economics of music, such as the proposed musical production function by Samuel Cameron (Routledge 2015) and the concept of distinction in cultural production by Pierre Bourdieu (Routledge 1984, 2010) as uniquely applied with examples from the COVID era. Readers will benefit from this easy-to-understand interdisciplinary exploration of the music industry with a focus on the United States and the political economy of music during the COVID era. Most cultural economics is focused on Europe and Asia, so this emphasis on the United States will be of interest. This book will be a beneficial reference work for researchers and will find an audience among music professionals and artists. Academics and non-academics, experts and novices interested in music and political economy will also find value in *Artists and Markets in Music*. *The Third Globalization* Dan Breznitz, John Zysman, 2013-04-25 Given the powerfully negative and ongoing impact of the Great Recession on western economies, the question of whether historically wealthy nations, the US, Western European countries, Japan, can stay wealthy has become an overriding concern for virtually every interested observer. In *The Third Globalization*, eminent political economists Dan Breznitz and John Zysman gather some of the discipline's leading scholars to assess the prospects for growth and prosperity among advanced industrial nations. **Business Communication Today** Courtland L.
