Wallace, 1995 Accessible to readers useful to specialists Much as has been written on Michelangelo By 1970 the number of scholarly books and articles exceeded 4 000 approximately a tenth in English In the past 25 years the literature has grown exponentially with a notable increase in English language publications The five volume series reproduces some 100 articles in English selected from a broad range of books and journals The collection is both accessible to the general reader and useful to the specialist offering a representative sample of old and new commentary on the artist and his work The career of a genius Articles are arranged chronologically with separate volumes covering the artist's early life and works the Sistine Chapel ceiling commission associated with San Lorenzo the tomb of Julius II and other Roman projects and a final volume devoted to drawings poetry and miscellaneous studies Spanning his entire 89 year life the articles explore Michelangelo's prodigious creativity as an artist thinker and poet The sheer quantity of what has been written on Michelangelo can be intimidating most students have little sense of how to approach or effectively utilize the vast literature By presenting a varied introduction to a great artist this collection is a handy reference tool for a wide array of topics problems and literature **Michelangelo** Weis Books, 2020-12-04 Michelangelo's Sistine Chapel ceiling is one of the most influential artworks of all time The Chapel is a foundational work of Renaissance Art Painted directly on the ceiling of the Sistine Chapel in the Vatican period This masterpiece depicts key scenes from the Book of Genesis The complex narratives and skillfully painted human figures stunned viewers when the painting was first unveiled to the public in 1512 The complex undertaking continues to impress the thousands of pilgrims and tourists from around the world who visit the chapel every day In 1508 Pope Julius II also known as Giulio II and Il papa terribile asked Michelangelo to paint the Sistine Chapel's ceiling Julius was determined that Rome should be rebuilt to its former glory and had embarked on a vigorous campaign to achieve the ambitious task This pope felt that such artistic splendor would not only add luster to his own name but also serve to supersede anything that Pope Alexander VI a Borgia and Julius rival had accomplished The ceiling measures about 131 feet 40 meters long by 43 ft 13 m wide Although these numbers are rounded they demonstrate the enormous scale

of this nontraditional canvas In fact Michelangelo painted well over 5 000 square feet of frescoes It took Michelangelo a little over four years from July of 1508 to October of 1512 to finish the paintings Michelangelo had never painted frescoes before and was learning the craft as he worked What s more he chose to work in buon fresco the most difficult method and one normally reserved for true masters The entire process required both the creation and learning of many hard techniques in perspective namely painting figures on curved surfaces that appear correct when viewed from nearly 60 feet below Michelangelo gets and deserves credit for the entire project The complete design was his The sketches and cartoons for the frescoes were all of his hand and he executed the vast bulk of the actual painting by himself The Master needed many assistants if only to mix his paints scramble up and down ladders and prepare the day s plaster more than a simple trip to a big box retailer Occasionally a talented assistant might be entrusted with a patch of sky a bit of landscape or a figure so small and minor it is barely discernable from below
