U.S. Latino Issues Rodolfo F. Acuña, 2017-01-26 A revision of the popular previous edition published more than a decade earlier this work examines today's U.S. Latino population now arguably the most important minority group in the country with numbers well over 50 million strong in an increasingly diverse and integrated America. Latinos are the largest minority in the United States and as such Latino Americans have a tremendous influence on the culture, workforce, economy, and politics of this country. This second edition of *U.S. Latino Issues* provides updated content, stats, and data for each topic and it frames critical questions and multiple viewpoints on Latinos in the United States that will be useful to student researchers. The responses to the critical questions come from Latino experts and scholars and other well-known subject experts providing readers with insights from various informed points of view all in a single volume. The book covers hundreds of topics regarding Latino Americans such as gender, sexuality, indigenous culture, race, and cultural identity, health, and wellness, education, and interracial dating and marriage, and it offers in-depth comparisons of the Latino groups and shows how events in their native countries affect them. Readers will have access to concise and up-to-date information on controversial topics such as affirmative action, immigration reform, open borders policy versus border enforcement, changing relations between the United States and Cuba, and Puerto Rico's contested status as a commonwealth versus a state.

American Men of Science, 1965 **Asian/Americans, Education, and Crime** Nicholas Daniel Hartlep, Daisy Ball, 2016-12-14

Asian Americans Education and Crime: The Model Minority as Victim and Perpetrator analyzes Asian Americans' interactions with the U.S. criminal justice system as perpetrators and victims of crime. This book contributes to a limited amount of scholarly writing so that researchers, policymakers, and educators can gain a deeper and more nuanced understanding of the relationship between Asian Americans and the criminal justice system. In reality, Asian Americans in the United States are both the victims of crime and the perpetrators of crime. However, their characterization as the model minority masks the victimization and violence they experience in the twenty-first century.
