**Serving Library Users from Asia** John Hickok, 2019-06-12 Asian populations are among some of the fastest growing cultural groups in the US. While books on serving other target groups in libraries have been published e.g. disabled Latino seniors etc, few books on serving library users of Asian heritage have been written. Thus, the timely need for this book. Rather than a generalized overview of Asians as a whole, this book has 24 separate chapters, each on 24 specific Asian countries, cultures of East Southeast and South Asia, with a wealth of resources for understanding, interacting with, outreaching to, and serving library users of each culture. Resources include cultural guides, both print and online, language helps with sample library vocabulary, Asian booksellers, nationwide cultural groups, professional literature, and more. Resources and suggestions are given for all three types of libraries: public, school, and academic, making this book valuable for all librarians. The demographics of each Asian culture, numbers and distribution, plus history of immigration and international student enrollment, is also featured. As a bonus, each chapter spotlights a US public school and academic library providing model outreach to Asian library users. Additionally, this book provides a detailed description and analysis of libraries in each of the 24 Asian countries. The history, development, facilities, conditions, technology, classification systems, and more of public school and academic libraries are all discussed with detailed documentation. Country conditions influencing libraries and library use are also described. Literacy levels, reading cultures, languages, and writing systems, educational systems, and more. Based on the author's 15 years of research and travels to Asia, this work is a must-have for all librarians. *Myanmar's Long Road to National Reconciliation* Trevor Wilson, 2006 In late 2004, Myanmar's best-known general and long-serving leader of the military regime was suddenly dismissed. This generated widespread uncertainty throughout the country and raised questions about the future. This book addresses some of the issues. **Myanmar (Burma)** Michael Clark, Joe Cummings, 2000 Thoroughly revised and enlarged to include areas just recently opened to travelers, this guide features updated and expanded sections on accommodation and transportation options for a wide range of travel budgets and time frames. Includes 25 detailed maps of towns, cultural sites, and regions, many for areas where no other maps exist, in full color. **Reflections on Myanmar** Reshmi Banerjee, 2023-02-17 Myanmar is known for its engaging history, rich cultural heritage, and diverse ethnic communities. Its tumultuous political past has been discussed by academics and policy makers for decades; however, the land of the Shwedagon cannot only be defined by conflict and contestation. Myanmar is complex and multi-layered, with innumerable issues shaping its identity and manifold interpretations creating its distinctiveness. A deeper comprehension of its past, glory, with thoughtful deliberation on its socio-economic challenges, helps to understand the country better. This book fills this gap by focusing on four broad themes: reminiscence, restoration, re-evaluation, and resurrection. It studies interconnected issues ranging from nostalgia and belonging to Myanmar's contribution to art and heritage through its museums, cinema, folk traditions, from the problems of landlessness, resource dispossession, and climate change to the

experience of marginalized groups The author weaves these themes into a common narrative of discovering Myanmar through a holistic lens The book aims to explore the country through its history culture communities and challenges A unique contribution the book highlights the myriad facets of Myanmar by contemplating on its inherent strengths and visible weaknesses It would be indispensable for scholars and researchers of Southeast Asian studies Asian studies area studies Myanmar studies political studies cultural studies and sociology Social Warming Charles Arthur,2021-06-24 Witty rigorous and as urgent as a fire alarm Dorian Lynskey Cooly prosecutorial Guardian Nobody meant for this to happen Facebook didn't mean to facilitate a genocide Twitter didn't want to be used to harass women YouTube never planned to radicalise young men But with billions of users these platforms need only tweak their algorithms to generate more engagement In so doing they bring unrest to previously settled communities and erode our relationships Social warming has happened gradually as a by product of our preposterously convenient digital existence But the gradual deterioration of our attitudes and behaviour on and offline this vicious cycle of anger and outrage is real And it can be corrected Here's how
