Mythbusters Curriculum Guide:

Personalising Learning in Open-Plan Schools Vaughan Prain, Peter Cox, Craig Deed, Debra Edwards, Cathleen Farrelly, Mary Keefe, Valerie Lovejoy, Lucy Mow, Peter Sellings, Bruce Waldrup, 2015-11-03 How can widely acknowledged challenges facing regional secondary schools with high concentrations of low SES students ineffectual curricula and poor levels of student engagement attendance and wellbeing be addressed In this book we report on key outcomes of the Bendigo Education Plan that aimed to improve the academic attainment and wellbeing of 3000 regional secondary students This Plan entailed rebuilding four Years 7 10 colleges and developing a differentiated and personalised curriculum with teachers team teaching in open plan settings We analyse how and why teachers and students adapted to these new practices We focus on both generic changes in the schools around the use of ICTs and the organisation of the curriculum and on specific approaches to teaching and learning in English mathematics science social studies and studio arts This book provides research based guidelines on how the curriculum can be renewed and enacted effectively in these and like schools In analysing a large scale attempt to address the challenge of making learning personalised and meaningful for this cohort of students our book addresses larger questions about quality secondary curriculum and successful teacher professional learning support

Becoming a Physical Education Teacher Gary Stidder, 2015-02-11 Teaching physical education is a challenging but rewarding occupation Finding a way into the profession can be a daunting task while regular changes in government policy can make it hard to stay up to date This engaging new book explains the process of becoming and being a teacher of secondary school physical education from the various routes of entry into the profession to the realities of being a qualified PE teacher to the ways in which experienced teachers can become teacher educators and nurture the next generation It combines rich personal accounts of teaching in and being taught physical education with practical advice for trainees newly qualified teachers and established professionals with an emphasis throughout on the importance of critical self reflection The book begins by exploring the nature and purpose of physical education and examining the historical development of initial teacher training It examines recent changes in training policy and curriculum and offers an overview of the various ways of becoming a PE teacher including the Post Graduate Certificate in Education PGCE and school and employment based routes The book offers advice on what to expect at interview meeting the standards for qualifying to teach and on how to survive the difficult first year as a newly qualified teacher It also outlines the challenges and rewards of being a qualified teacher mentor or curriculum leader as well as a teacher educator within higher education Concise helpful and filled with sensible insights based on real experiences of teaching physical education Becoming a Physical Education Teacher is an essential read for anybody considering entering the profession or for students trainees newly qualified or experienced teachers wanting to understand better the process of becoming and being a successful PE teacher

Safe Vaccine Administration Helen Donovan, Helen Bedford, 2025-07-21 This book equips nurses and midwives with a role in providing

vaccination services in the UK with the information they need to practice safely and effectively This includes ensuring they are equipped to answer questions as they arise Starting with the importance of vaccination for public health the book takes a vaccination through the life course approach from pregnancy babies and childhood teenagers adults to older people discussing some of the key challenges and issues with the different vaccine programmes The book provides readers with the best practice guidance to offer a safe effective and quality service To maximise the uptake of vaccination across the population it offers guidance on how to ensure vaccination is offered to and accessible to all those who are eligible Information is offered on how to address parents and patients questions and concerns effectively to ensure they are provided with the evidence based information they need to make an informed decision about vaccination and be able to give informed consent This book also provides technical information on vaccine preparation injection techniques and how to minimise the pain and distress of vaccination it also provides clinical management support for patient observation after vaccination Each chapter is written by nurses and midwives expert in immunisation and vaccine administration with contributions from physicians legal and pharmacy professionals where relevant

Collecting for the Curriculum Amy J. Catalano, 2015-09-28 If you re a librarian charged with collecting curriculum materials and children s literature to support the Common Core State Standards then this book the only one that offers explicit advice on collection development in curriculum collections is for you While there are many publications on the Common Core for school librarians and K 12 educators no such literature exists for curriculum librarians at the post secondary level This book fills that gap standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards CCSS The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices The book begins with a primer on the CCSS and how curriculum librarians can support them Discussion of the Standards is then woven through chapters arranged by content area that share research based practices in curriculum development and instruction to guide you in curriculum selection Material types covered include games textbooks children s literature primary sources counseling and nonfiction Additional chapters cover the management of curriculum collections testing collections and instruction and reference as well as how to support and collect for special needs learners Current practices in collection development for curriculum materials librarians are also reviewed The book closes with a discussion of the future of curriculum materials
