Foreign Agents Casey Michel,2024-08-27 A stunning investigation and indictment of a segment of the United States foreign lobbying industry and the threat to end democracy For years one group of Americans has worked as foot soldiers for the most authoritarian regimes around the planet In the process they ve not only entrenched dictatorships

and spread kleptocratic networks but they've secretly guided U.S. policy without the rest of America even being aware. And now some of them have begun turning their sights on American democracy itself. These Americans are known as foreign lobbyists and many of them spent years ushering dictatorships directly into the halls of Washington all while laundering the reputations of the most heinous repressive regimes in the process. These foreign lobbyists include figures like Ivy Lee, the inventor of the public relations industry, a man who whitewashed Mussolini, opened doors to the Soviets, and advised the Nazis on how to sway American audiences. They include people like Paul Manafort, who invented lobbying as we know it and who then took his talents to autocrats from Ukraine to the Philippines and then back to the White House. And they now include an increasing number of Americans elsewhere in law firms and consultancies among PR specialists and former lawmakers and even within think tanks and universities. In *Foreign Agents*, Casey Michel shines a light on these foreign lobbyists as some of them, after decades of installing dictators and corrupting American policy, embark on their next mission to end America's democratic experiment once and for all.

Every society has its ideals and its myths. In *Naked America*, author Michael A. Smith examines many of the nation's original ideals and presents compelling information indicating most of them have been transformed into myths. For example, many regularly describe the United States as the land of economic opportunity, yet 20 percent of American households earn half of all income and own more than half of all the nation's assets. Education is touted as the road to success, although only one-third of high school graduates achieve a postsecondary education degree. Two-thirds of future jobs in what has become essentially a service economy are projected to be low- or very low-paying. In the world's self-proclaimed greatest democracy, pessimism about government is widespread, and only 35 percent of registered voters vote regularly. Although more than 80 percent of Americans profess to be practicing Christians, New Testament ethics appear overwhelmed by mindless materialism, pervasive marketplace fraud, a high crime rate, constant ideological bickering, and cultural kitsch. To rectify this situation and turn America's ideals into reality, the author proposes many wide-ranging social, economic, and political reforms. **Peterson's ... 4 Year Colleges**, 2000.
